NEW PRODUCT AVAILABLE!

SNATCH BLOCKS

The Overland Vehicle Systems Snatch Block - Heavy Duty is a heavy duty offroad recovery accessory that allows you to easily drag your truck, tractor, ATV, or UTV out of snow or other difficult situations. The two rings rotate for angled pulls and the anti-corrosion coatings make it a reliable offroad accessory. There is also 16,000 LB. Standard option for lower extremity recovery situations. Whether you're stuck in the mud or snow, the Overland Vehicle Systems Heavy Duty Snatch Block will help you get your vehicle out without any hassle. Order yours today and be prepared for any offroad adventure!
