

# STORAGE BOXES

This rugged storage box is equipped with nitrogen gas-charged open-assist struts, making lid access smooth and effortless. It features three ergonomic flip latches with secure locking points, and two heavy-duty ballistic nylon handles for reliable carrying. MOLLE panel attachment points allow for customizable gear storage, while a military-grade gasket provides a weather-tight seal to keep out dust and moisture. Designed for overlanding and off-road use, the heavy-duty vehicle installation bracket ensures stable, secure mounting during rough travels.
