## PREMIUM LTE GRIDDLE

# 30-Inch Premium LTE Griddle

By designing the 30-Inch Premium LTE Griddle, Blaze entered a new outdoor cooking category while maintaining the same results you'd expect from the leading grill brand.

Like our gas models, we chose heavy-duty, 304-grade stainless steel for maximum durability, along with the LTE Series' LED red control knob illumination.

The stainless steel burners are U-shaped to provide exceptionally even heat across the 495 square inches of cooking surface, which can be used for everything from stir fry and searing steaks to a full-scale breakfast.

BLZ-GRIDDLE-LTE- LP/NG  
BLZ-GRIDDLE-CART-SC

Heavy-duty, commercial-grade stainless steel construction packs unrivaled longevity.

18,000 BTUs of cooking power in each U-shaped burner provide even heat across the griddle surface.

Reliable flame-thrower ignition makes lighting the griddle simple, while the backup flash-tube ignition with crossover channels ensures you can always ignite the griddle.

Full-width grease trough directs drippings into the drip tray for effortless cleanup.

## KAMADO GRILL

# Blaze 20-Inch Cast Aluminum Kamado Grill

The modern kamado-style grill is widely considered one of the most versatile grills on the market—and for good reason.

Kamados maintain consistent temperatures as low as 225°F and as high as 750°F and up. Their vent systems allow grillers to precisely control airflow, essentially turning the grill into a wood-fired oven.

Blaze took the lessons learned from centuries of kamado-style cooking, then introduced a modern twist by building this patented kamado® with solid cast aluminum measuring 1 inch thick.

Why cast aluminum? This design provides unparalleled durability—whether it's exposed to extreme saltwater or any other conditions that would wreak havoc on a ceramic kamado—plus the same outstanding temperature control and heat retention traditional kamados are so well known for.

With a lifetime warranty on the cast aluminum body and other key components, kamado purists can confidently break from tradition to experience a superior grill engineered for luxury cooking.

Also available as a built-in model, in addition to a freestanding unit.

## KAMADO STANDARD FEATURES:

**Molded Exhaust Cap**  
Cast-molded exhaust cap allows for precise heat control.

**1-Inch Thick Cast Aluminum**  
This design adds unparalleled durability.

**Lift Assist**  
Pre-installed lid hinge with lift assist allows for easy burping and opening of the kamado.

**Cooking Grid**  
20-inch diameter stainless steel hex-shaped cooking surface provides exceptional heat retention and beautiful sear marks.

**Hinged Cooking Surface**  
Hinged cooking surface allows for the convenient addition of wood or charcoal without removing the grates.

**Tongue-and-Groove Seal**  
Instead of the traditional gasket design, which often needs replacement because of wear and tear over time, Blaze chose an exceptional tongue-and-groove seal to help the lid last longer and better lock in smoke.

## BURNERS

# Side Burners and Power Burners

To complement your Blaze grill and complete your outdoor kitchen, we offer a selection of side burners and power burners.

Whatever your demands, Blaze burners deliver a reliable flame with every start thanks to the push-and-turn ignition system also found on our grills.

Each burner in the set features a stainless steel cover to block the outdoor elements, while the Professional, LTE, and LTE+ models sport signature red LED lighting along with full-width drip trays for speedy cleanup.

Our side burners and power burners are all built with 304-grade stainless steel and covered by the best-in-class, lifetime warranty upon which the Blaze brand was built.

## VENT HOODS

# Vent Hoods

The Blaze Outdoor Vent Hoods ensure smoke never creates concern with a deep hood canopy and powerful motor system.

Designed to assist with dispersing accumulated gases and exhaust, these hoods feature industry-leading 36-inch, 42-inch, or 48-inch depth, offering more coverage of the cooking space to capture larger quantities of smoke and heat. That much size and power allow our hoods to be installed farther from the grill than other hoods, creating a cleaner and less cluttered cooking area.

## Blaze 36", 42," and 48" Vent Hoods

BLZ-36-VHOOD  
BLZ-42-VHOOD  
BLZ-48-VHOOD

Large canopy depth maximizes the capture range of the vent hood.

Independent and individually controlled 1,000-CFM, 4-speed motors provide exceptional smoke removal.

Higher allowable installation height creates a more comfortable work area.

4 halogen lights illuminate your cooking surface any time of day or night.

Innovative grease-free controls with lighted facing.

Reversible motors and back-venting options keep you in constant control.

## SAFETY FEATURES

### Wind Guards

Wind guards protect your grill (and your cook) in high wind areas, such as coastal regions or balconies. This guard helps to ensure the burners stay lit and stable, greatly reducing the risk of flare-ups. Able to withstand 25 mph winds, our wind guards will help to create a more controlled cooking environment.

Every Appliance and component you plan to put into your module requires extra framing called a cutout kit to support it. For example: a grill requires a grill cutout kit, a door needs a door cutout kit... Our kits are pre cut for the depth parts to fit our modules. The width parts of the cutout kits are made with our telescoping parts for no cutting. Extra Vertical tubes for cutout kits and cement board seems are sold separate.

## Upgrade Kits

### Welded Split Bar Counter Frame

**4 ft Welded Split Bar Counter** . Available in 4ft and 2 ft lengths. Makes it super easy to add a raised bar counter for bar stools to your outdoor kitchen.
