SESHGEAR

INSTRUCTION MANUAL | Shroom Vape Battery

Specs
Size: 3" x 1.4" x 1.4"
Max Cart Size: fits any 510 threaded cartridge
Battery Capacity: 550 mAh
Voltage: 2.8 V – 4.2 V (1.8 V Pre-heat)
Charging: USB-C
Resistance: ≥ 0.8 Ω

Charging
Before using the SeshGear Shroom Vape, fully charge the device using a USB-C charging cable and a standard charging brick. While charging, the screen will show the battery level and the % sign will flash. When the device is fully charged, the % sign will stop flashing and the screen will turn off after 10 seconds.

Power On/Off
The device has only one functional button, the top of the three nubs located on the side of the device. To power the device both on and off click the button five times. The screen will turn on and reflect the battery percentage. Firmly screw in your cartridge to the threaded connection at the top of the device.

Change Voltage
To change the voltage on the device, press the button three times. The device will cycle through the following preset voltages: 2.8 V, 3.2 V, 3.6 V & 4.2 V.

Pre-heat
This device has a pre-heat function set at 1.8 V for about 12 seconds. To activate the pre-heat press the button twice. Pre-heat function will be indicated by the LED light changing colors as well the "v" flashing and "1.8" displayed on the screen. Pre-heat function can be stopped anytime by pressing the button once.

Use
To fire the device, press and hold the button for the duration of your inhale. The max vape time is 15 seconds, the button will flash red 3 times and the screen will flash 3 times.

Cleaning Instructions
Remove the cartridge from the battery. Wipe around the device with an isopropyl alcohol pad. Use an alcohol swab to wipe any excess oil out of the 510 connector. Do not submerge any part of the device in a cleaning solution. Allow the device to air dry prior to reassembly.

Protection Features
Short-circuit protection: If you press the button and it flashes red 5 times, the cartridge has a short circuit and will need to be replaced.

Failed Cart Connection Warning
If you press the button and it flashes red 2 times, the device is not registering the cartridge. Please clean the 510 connection and try again. If it still doesn't work, the cartridge may be faulty.

Warning
Do not expose to extreme temperatures or direct sunlight. Do not drop the device or accessories. Do not drop or submerge in any liquid. Do not modify the electronics in any way. This device is intended for adults only. Do not sell or provide to minors. Keep all parts, concentrates, herbs, and liquids away from children and pets. This is not a medical device and is not intended to diagnose, treat, mitigate, cure, or prevent any ailment, disease, or other conditions. Consult a physician before use, especially if you suffer from heart disease or any other medical condition, or if you are pregnant or breastfeeding. Failure to follow any of these instructions could result in product damage, property damage, personal injury, and may void warranty.
