

Minimise Downtime, Maximise Convenience

PJ-800 Series A4 Thermal Mobile Printers

NFC

WI-FI

brother.com.au

Minimise downtime and maximise convenience with the latest in direct thermal technology.

Print anywhere, anytime

At just 26cm wide and weighing approximately 480g (excluding battery), the PJ-800 series offers a true A4 mobile solution that fits easily into a briefcase or computer bag and can be mounted in vehicles or other work areas. Its advanced, direct thermal technology offers the most reliable mobile printing solution that allows busy mobile workforces to focus on the job at hand without needing to purchase ink, toner or ribbons to maintain productivity.

Connect your way

With a host of connectivity options available at your fingertips including Bluetooth, dual band Wi-Fi, USB-C and NFC, your mobile printer can adapt to your working environment with ease. Enjoy the convenience of connecting wirelessly via Wi-Fi to your Apple, Android or Windows devices using Airprint, Mopria, iPrint&Scan or Brother Print Service apps to streamline your workflows.

High-quality printing

Experience print speeds up to 13ppm* and high-quality outputs up to 300dpi that ensure your documents are always available when you need them and are of professional quality. In addition, the ability to print on both thin and thicker paper up to 75gsm affords you the flexibility to print a range of documents including invoices, order forms, quotes, contracts and more, using only one device.

Seamless integration and setup

Whether you're deploying a fleet of mobile printers for the first time, or you are upgrading your existing hardware, the PJ-800 series is designed for seamless integration and easy setup to minimise disruptions to your workforce. With the ability to support printer command languages, including ZPL2 emulation, this mobile printer offers compatibility with a variety of embedded systems.

Complete mobile printing solution

The PJ-800 series has a host of optional accessories[#] available that allow you to tailor it specifically to the needs of your workforce. What's more, if you are upgrading your fleet from our PJ-700 series, most accessories are backward compatible so you can continue using accessories that have been tried and tested within your business to minimise downtime and maximise convenience.

At your side support

Wherever you are in Australia, Brother offers free customer care for the lifetime of your product.

See pages 5 and 6 for optional accessories

*When connected by the USB interface and the fully-charged battery

The complete printing solution that supports mobile workforces

Used in a wide range of applications across a variety of industries, the Brother PJ-800 series is utilised to achieve greater business productivity and a continuous workflow

Healthcare Professionals

Home healthcare workers can now print documents onsite. This helps them avoid delays in distributing care plans and instructions whilst minimising errors by avoiding handwritten documents.

Public Safety/Emergency Services

With the ability to print on-the-go, those who work in this industry can avoid clerical errors as well as unnecessary paperwork once back in the office.

Applications Include:

- Medication lists
- Care plans
- Teaching guides
- Status reports
- Contracts and waivers

Applications Include:

- Citations/Fines
- Patient reports
- Incident reports
- Warning notes

Logistics/Deliveries

Drivers can now print from their vehicle or from the customer's premises, increasing productivity every day.

Warehousing

With the most common sizes of shipping labels available and the ability to create custom size labels up to A4 size, there are many uses for these models in the warehouse.

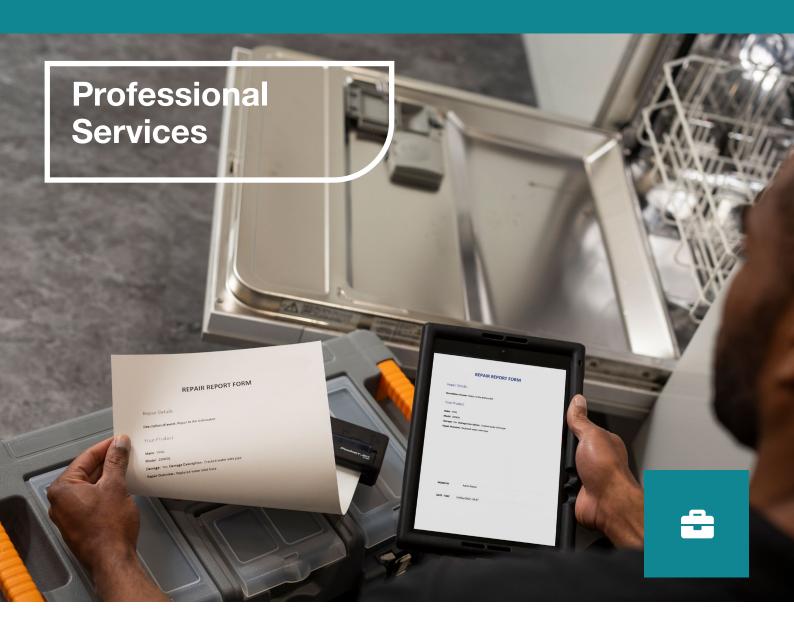

Applications Include:

- Invoices
- Delivery notes
- Order sheets
- Stock taking data

Applications Include:

- Shipping notes
- Order sheets
- Compliance documents
- Quality control documents

Mobile Sales Teams

Busy sales professionals can now print documents from their client's premises, increasing productivity that results in more time to visit other clients.

Mobile Service Teams

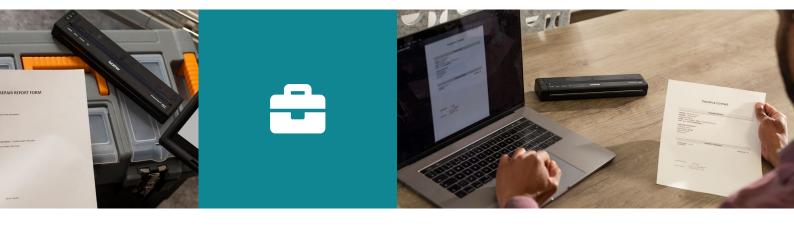

Service teams, including mobile engineers, can now leave hard copies of documents at the job just completed, increasing efficiency, accuracy while adhering to legislation requirements.

Applications Include:

- Invoices
- Quotes
- Financial plans
- Contracts

Applications Include:

- Invoices
- Service reports
- Maintenance reports
- Replacement part orders
