Nexa PX-610

Thermal Receipt Printer

Overview

The Nexa PX-610 is a thermal receipt printer that combines one of the smallest footprints on the market with a stylish gloss finish and Nexa's lowest price point yet.

It also has two interface styles not available on other Nexa models which are 25 pin serial, (ideal for replacing other 25 pin serial printers where you don't want to replace the cable), and standard USB, (as opposed to virtual serial USB on the Nexa PX-700 and PX-900).
