

BOOGIE LIGHTS® LED CONTROLLERS

Out-of-Production | June 2023

With the introduction of our GEN2 LED CONTROLLERS, our GEN1 LED controllers are out of production. We do however have remaining stock of many of our popular GEN1 Controllers available on our site (all at reduced pricing too). Below is the list of GEN1 LED Controllers we are no longer producing primarily because we have integrated many of the features on these controllers into newer models.
