

What are Revolution Outdoor Fabrics?

Revolution Outdoor Fabrics are performance fabrics that are virtually unstainable, easy to clean, extremely durable, and are also resistant to fading from the sun.

Revolution Outdoor Fabrics are made in the USA at our family owned factory in North Carolina.

Revolution Outdoor Fabrics are made with recycled yarn, and no water is used in the dying process.

Unlike other performance brands, Revolution Fabrics use **NO PFAS CHEMICALS**, making our fabrics easy on your home and the environment.

- Five year warranty
- Stain Resistant
- Bleach cleanable
- No PFAS chemicals
- Mildew resistant

STAIN RESISTANT FOR LIFE	✓	Olefin is a unique, solution-dyed fabric because it has no "dye sites", so stains are not able to attach themselves to the fiber, making the fabric inherently cleanable. Other solution-dyed fabrics such as Acrylic, Polyester and Nylon, do not have this property so they must be treated with stain resistant chemicals, which wear off over time.
100% WOVEN IN THE USA	✓	STI, the makers of Revolution, is a family-owned factory that has been making upholstery fabric in Kings Mountain, North Carolina since 1964.
NO PFAS	✓	Since there are NO chemical stain treatments applied, Revolution fabric is safe for family, friends, and pets to live on. We are not part of the PFAS supply chain.
EASY TO CLEAN	✓	Revolution fabrics can be cleaned with any household cleaner, even pure bleach!
RESISTS FADING IN SUNLIGHT	✓	Revolution outdoor fabrics are highly resistant to sunlight and can endure 3000 hours of lightfastness without fading.
MADE WITH RECYCLED FIBERS	✓	Upcycling is the process of transforming byproducts, waste, and other trash into new and useful materials. Upcycled fiber is a more sustainable alternative to using post consumer recycled fiber.
SMALLEST CARBON FOOTPRINT	✓	Olefin is dyed without the use of water and requires a minimal amount of land and energy for production. Fibers such as acrylic and polyester require much more energy and water to produce.
EXCEPTIONAL DURABILITY	✓	Revolution Performance Fabrics are constructed to withstand years of wear, cleaning, and every day messes.
