

# Cushions

## Seat Cushions

### CLASSIC PREMIUM CUSHIONS

Our Classic Premium seat cushions feature a poly-wrapped foam core encased in an SMS (Spunbond-Meltblown-Spunbond) jacket that repels water and offers exceptional comfort.

### SPRING COIL CUSHIONS

The core of our Spring Coil seat cushion is made of individually pocketed galvanized spring coils that are tightly packed in high density foam, wrapped with a 100% polyester fiber, and encased in an SMS jacket.

*Spring Coil cores are used in the deep seating cushions for the Alpine, Charisma, Escape, Frontier, Pursuit, Solstice, Southport, Summit, and Visions collections.*

## Back Cushions

### FORMED FILL

Sleek, contemporary back cushions use the same construction as our Classic Premium seat cushions: a poly-wrapped foam core encased in an SMS jacket.

### BLOWN FILL

Loose, pillowy back cushions are made with 100% polyester blown fill.
