### NETTE FINISH

DUAL-LAYER STRAP - PEWTER P

### DESCRIPTION

These straps are engineered for durability and to resist weathering. Composed of a soft outer polyolefin weave supported by an internal strap, this material provides both strength and comfort.

### DURABILITY

Polyolefin is mildew and chlorine resistant, quick drying, and water repellent. Dye is added to a liquid polymer solution before being spun into fibers so the colors stay true for a long period of time. The internal strap is polyethylene, woven and bonded. These materials are ideally suited to the outdoor environment and provide commercial-grade quality.

### CARE AND MAINTENANCE

Brush off dirt before it becomes embedded and clean liquid spills as soon as they occur by blotting (don't rub) with a clean, dry cloth. For oil-based spills, apply an absorbent such as corn starch, then remove with a straight edge. Wash gently with a mild, non-abrasive cleanser. Rinse well and air dry.

### WARRANTY
