MATERIALS & CARE

**MATERIALS**

**TEAK** is a superior wood for the construction of outdoor furniture. Because of its high oil content it is resistant to rotting, bug infestation, and the effects of wind, rain, sun, and snow. If left untreated, teak weathers naturally to a beautiful silver gray color. Some surface roughness may develop, especially at the end grain, but over a period of about one year, the natural weathering process will stabilize. Small surface cracks may appear but in no way affect the structural integrity of the furniture.

**SUNBRELLA® FABRIC** is engineered with robust performance characteristics that provide resistance to fading and degradation from sunlight and chemical exposure, Sunbrella® fabrics are 100% solution-dyed acrylic, meaning the fibers are dyed in a color solution before they are woven—not printed on after the fabric's base cloth is made. These fabrics are also water-resistant, so the colors stay true for a long period of time.

**CARE**

---

**TEAK** weathers well, however a routine application of Teak oil is recommended in extremely dry climates and for dining purposes to discourage staining from food and drink spills. For seasonal cleaning rinse the teak well and use a sponge or soft bristle brush to scrub with a mild cleaning solution. Rinse with fresh water. Paint or any products with polyurethane are not recommended, as application of these products will void the warranty.

**FABRIC** should have dirt brushed off before it becomes embedded and liquid spills cleaned as soon as they occur. Blot (don't rub) with a clean, dry cloth. For oil-based spills, apply an absorbent such as corn starch, then remove by scraping gently with a straight edge. Spray with a mild cleaning solution (such as Dawn® or Woolite®) and water. Rinse the fabric thoroughly to remove all soap residue and air dry. Repeat if necessary.
