Product Overview

This Poly 46" pediatric code response cart organizes supplies in 9 drawers. Individual external locks secure drawers separately and provide visible tamper evidence. Antimicrobial polymer construction and removable drawer modules support routine cleaning and restocking. The configuration includes eight 3" drawers and one 6" drawer. The cart has a light gray body.

This model includes 100 tamper seals, color-coded pediatric label set, label covers, cardiac board, adjustable IV pole, oxygen tank holder, adjustable-depth suction pump shelf, and push-to-open side shelf. Key Features: Antimicrobial Polymer Construction: Durable construction designed for frequent cleaning in clinical environments. 9-Drawer Configuration: Includes eight 3" drawers and one 6" drawer.

Individual Pull-and-Break External Seal Locks: Individual external locks secure drawers separately and provide visible tamper evidence. Included Accessories: 100 tamper seals, color-coded pediatric label set, label covers, cardiac board, adjustable IV pole, oxygen tank holder, adjustable-depth suction pump shelf, and push-to-open side shelf. Removable Drawer Modules: Modules can be removed for cleaning and restocking. Five-Inch Casters: Support mobility, with two parking locks for stationary positioning.

Fully Assembled: Arrives assembled for stocking before use. Overall Dimensions: 33" W x 23" D x 46" H.
