

POTABLE WATER FILL COUPLINGS

SAGEPARTS.COM / INFO@SAGEPARTS.COM

GO WITH THE FLOW, FASTER AND BETTER

RAMPTECH® POTABLE WATER FILL COUPLINGS

feature a quality-engineered, open end quarter turn lock-and-release design for fast and highly efficient connect and disconnect.

These couplings attach to any standard 3/4 inch water-fill nipple, and positive snap lock assures a no-drip and leak proof connection between a ground service vehicle and the aircraft potable water fill system during servicing.

Designed for a wide temperature range, **RAMPTECH® POTABLE WATER FILL COUPLINGS** are also engineered for durability – featuring rugged yet lightweight anodized aluminum construction.

Other top quality features include knurled body for improved handling, a high operating pressure rating with low pressure drop, robust hose bib that accepts a standard 3/4 inch ground servicing hose/clamp connection, and FDA approved o-ring material.

FDA APPROVED
O-RING MATERIAL

SAGE PN#:
383031

FEATURES

- DISTINCTIVE QUICK CONNEC/DISCONNECT WITH POSITIVE SNAP LOCK
- LEAK-PROOF SEALING ON ALL STANDARD 3/4 IN. POTABLE WATER-FILL SERVICE PANEL NIPPLES
- OPEN END, QUARTER-TURN TO LOCK AND RELEASE
- LIGHTWEIGHT/RUGGED ANODIZED ALUMINUM CONSTRUCTION
- HOSE BIB ACCEPT STANDARD 3/4 IN. HOSE/CLAMP CONNECTION
- HIGH OPERATING PRESSURE RATING WITH LOW PRESSURE DROP
