**NATIONAL  
KITCHEN EQUIPMENT**  
Importers Of Quality Commercial Equipment

## **Modular Professional Commercial Dishwasher DW50PS**

**National Kitchen Equipment** are the direct importers of these fantastic commercial dishwashers, you are not buying from 'middle men'. This means that we can provide this dishwasher at a price much lower than market value so that your money can go a lot further by buying direct from the importer.

### **Modular Professional Commercial Dishwashers**

are Italian made and meet all of the requirements for **hygiene, productivity & reliability**.

The high functionality and efficiency guarantees significant energy and cost savings, while preserving the environment from unnecessary waste with a low consumption of only 3 litres of water per cycle.

Thanks to its compact, undercounter design, the unit is perfect for kitchens with limited space available and a need for efficient warewashing.

Made with #304 grade stainless steel, this machine is built to withstand heavy-duty use in a commercial kitchen. Operation of the machine begins when you press the easy-to-use push button. The unit fills, thanks to the automatic fill feature, and the cycle starts.

To accommodate a variety of drain installations, the drain has an automatic pump. Detergent and rinse aid pumps are also included so that you can start operating this machine as soon as possible after delivery.

Anti-clogging wash arms and revolving upper and lower rinse arms spin during the washing cycle to clean your dishes in an efficient manner.

### **Features**

- Stainless Steel 18/10 Aisi 304
- Easy-to-use controls makes operation a breeze
