

# MOULDINGS ONE

## Federal Crown Moulding

3006 [3/4 x 5-1/4]

Federal crown molding shapes adhere to the same style as base moldings: serpentine shapes like the cyma recta and cyma reversa.

## Federal Baseboard Moulding

5456 [5/8 x 1-3/4]

S4S [3/4 x 7-1/4]

Federal style baseboards feature ogee profiles that rely on the cyma recta and other serpentine shapes. Less ornate shapes are also present in Federal homes. Moldings were commonly painted white – particularly baseboard and crown – were painted white.

# MOULDINGS ONE

## Federal Casing #1

1513 [1 x 3]

While Federal style door and window trim could include simple designs, like rectangular planed surfaces, they were often more ornate. These moldings featured reeded and fluted surfaces combined with a cyma recta or other serpentine curve in their profile.

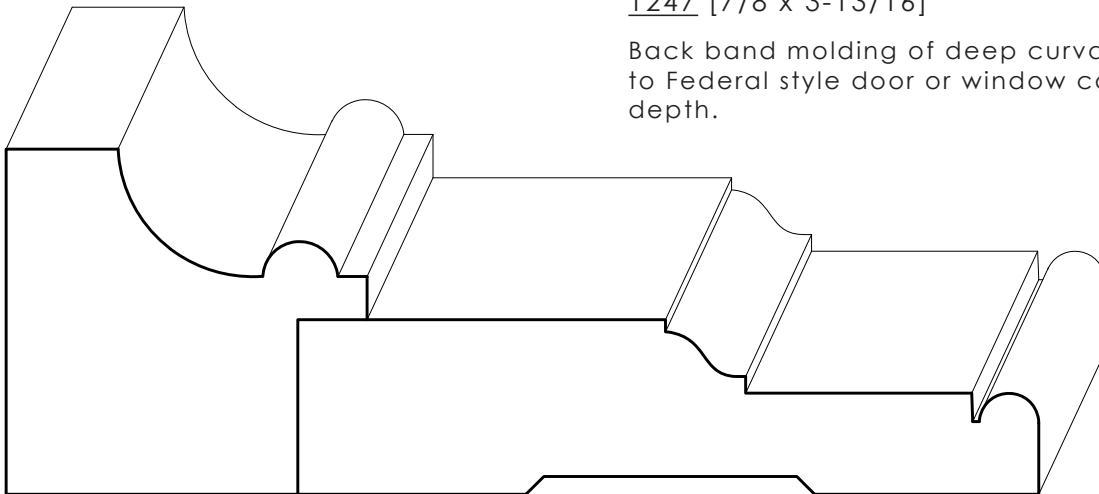

## Federal Casing #2

7061 [1-5/8 x 1-7/8]

1247 [7/8 x 3-13/16]

Back band molding of deep curvature can be added to Federal style door or window casing for further depth.
