Joining rails

Assembly instructions

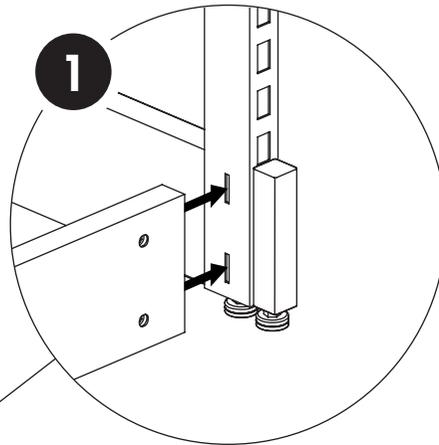

R1E0009.4WH-190730

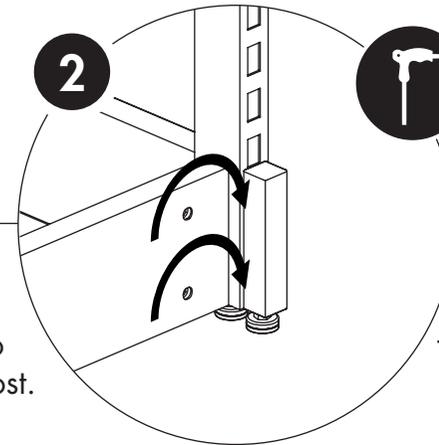

Insert the lock into the hole on the post.

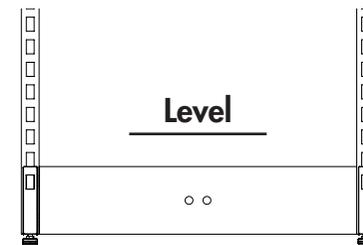

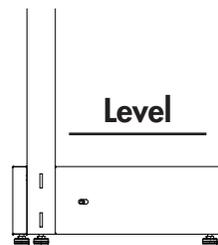

Turn the lock fully (180°) into the locked position.

Start with the base joining rail. Insert the locks into the holes on the post.

Turn the locks fully (180°) into the locked position.

Important

Ensure the glides under posts take load to the floor and the unit is level in all directions by adjusting the glides under posts, feet and heels.
