SETUP & INSTRUCTIONS

So, you've finally received and opened your Perfect Cloud mattress, and you're ready for the greatest night of sleep that you've ever had. Yay! let's do this setup right so you don't hurt your back in the process and end up really needing that bed.

If you follow these simple instructions, you'll be on your way to an amazing nights rest (and without an injury to boot).

1. Make sure you get a friend to help you move the mattress (especially if your bedroom is upstairs).
2. Place the carton onto a flat surface in your bedroom. Carefully pull out the mattress and place it onto your bed.
3. Carefully cut the outer bag with scissors making sure not to cut the plastic bag inside of the mattress. DO NOT USE A KNIFE.
4. Roll out the vacuum-sealed mattress onto your bed.
5. Carefully cut the plastic bag along the edges and watch as the mattress instantly begins to decompress. Remove the plastic bag.
6. Allow 24 hours for your new mattress to fully expand.

With that you are ready to finally get the sleep that you deserve.

We're confident that this will revolutionize your sleeping experience, but we'd love any feedback or suggestions tht you might have. Please feel free to leave a review, text us, or email us at info@perfectcloudmattress.com so we can ensure the best possible experience for you.
