

HPE ProLiant DL360 Gen11

What's new

- Powered by 5th Gen Intel® Xeon® Scalable Processors that supports up to 64 cores & 385W, and 16 DIMMs for up to 8 TB of high bandwidth DDR5 memory up to 5600 MHz.
- 16 DIMMs per processor for up to 8 TB total DDR5 memory per server with increased performance, High Bandwidth Memory (HBM) support, and lower power requirements.
- Advanced data transfer rates and higher network speeds from the PCIe Gen5 serial expansion bus, with up to 2 x16 PCIe Gen5 and 2 OCP slots.
- Includes the new HPE Integrated Lights-Out 6 (iLO 6) server management software that enables you to securely configure, monitor, and update your HPE ProLiant Gen11 servers seamlessly, from anywhere.
- Supports up to three single-wide (SW) GPUs[1] to accelerate graphic intense workloads.

Overview

Are you looking for a scalable, compute-dense solution for hybrid cloud or other data workloads in a virtualized and containerized environment?

The HPE ProLiant DL360 Gen11 server is a rack-optimized, 1U 2P solution that delivers exceptional compute performance, upgraded high-speed data transfer rate, and memory depth at 2P compute capability.

Powered by 4th and 5th Gen Intel® Xeon® Scalable Processors with up to 64 cores, 8 TB of memory, and 20 EDSFF drives as well as increased memory bandwidth and high-speed PCIe Gen5 I/O, the HPE ProLiant DL360 Gen11 server is a perfect solution for Electronic Design Automation (EDA), CAD, and VDI.

The HPE ProLiant 360 Gen11 server is engineered to optimize IT with a cloud operating experience, built-in security, and optimized performance for workloads to drive your business forward.

- Supports Liquid Cooling Modules for highest thermal design points (TDPs).

Features

Intuitive Cloud Operating Experience: Simple, Self-service, and Automated

HPE ProLiant DL360 Gen11 servers are engineered for your hybrid world. ProLiant DL360 Gen11 servers are powered by 4th and 5th Gen Intel® Xeon® Scalable Processors and simplify the way you control your business's compute—from edge to cloud—with a cloud operating experience.

Transform business operations and pivot your team from reactive to proactive with global visibility and insight through a self-service console.

Automate tasks for efficiency in deployment, instant scalability, and seamless, simplified support and lifecycle management to reduce and shorten maintenance windows.

Self-service automated experiences are engineered and built into all HPE ProLiant Gen11 servers, whether purchased as physical servers or consumed as-a-service using HPE GreenLake as your compute and storage demands grow.

Simplify and secure server management from edge to cloud with HPE Compute Ops Management. HPE Compute Ops Management is an as-a-service compute management experience that delivers greater simplicity, agility, and speed across your entire compute landscape, globally.

Trusted Security by Design: Uncompromising, Fundamental, and Protected

The HPE ProLiant DL360 Gen11 server utilizes the HPE Silicon Root of Trust, HPE's fundamental approach to security that provides zero-trust architecture at the silicon level and ensures all server essential firmware is free from malware or compromised code.

Powered by 4th and 5th Gen Intel® Xeon® Scalable Processors, adds hardware- and software-assisted security features, including Intel® Software Guard Extensions and Intel® Boot Guard, which help secure the server hardware foundation on which critical apps run and better protect data in memory.

HPE ProLiant Gen11 servers continuously protect healthy servers by a) providing rapid detection of security-compromised servers, even to the point of not allowing them to boot if it identifies malicious code, and b) securing servers at the edge with iDevID certificates installed by default.

HPE ProLiant Gen11 servers provide automated recovery from a security event, including restoration of validated firmware, and facilitating recovery of the operating system, application, and data connections, providing a fast path to bring a server back online and into normal operations.

Embedded in Hewlett Packard Enterprise servers, HPE Integrated Lights-Out 6 (iLO 6) is an exclusive core intelligence that monitors server status, providing the means for reporting, ongoing management, service alerting, and local or remote management to quickly identify and resolve issues.

Optimized Performance for your Workloads: Accelerated, Open, and Efficient

The HPE ProLiant DL360 Gen11 server is an excellent choice for EDA, CAD, CDN, general-purpose virtualization workloads (including large-scale VDI), Intelligent Video Analytics, and Platforms (VCF & Containers) that require increased compute density with built-in security and flexibility.

Harness major computer performance. The HPE ProLiant DL360 Gen11 server is powered by the 4th and 5th Gen Intel® Xeon® Scalable Processors with next-generation technology that supports up to 64 cores, 385W, and up to 8 TB of memory.

The HPE ProLiant DL360 Gen11 server provides advanced data transfer rates and higher network speeds from the PCIe Gen5 serial expansion bus, with up to 3 x16 PCIe Gen5 and 2 OCP slots to improve I/O throughput and reduce latency.

The server provides 16 DIMMs per processor for up to 8 TB total DDR5 memory with increased memory bandwidth and performance, and lower power requirements.

The HPE ProLiant DL360 Gen11 server provides real-time operational feedback on server performance plus recommendations for fine-tuning BIOS settings to customize for changing business needs.

Technical specifications	HPE ProLiant DL360 Gen11
Processor type	Intel®
Processor family	5th Gen Intel® Xeon® Scalable Processors and 4th Gen Intel® Xeon® Scalable Processors.
Processor core available	8 to 64 core, depending on processor.
Processor cache	12—320 MB L3, depending on processor.
Processor number	1 or 2
Processor speed	3.9 GHz, maximum depending on processor.
Maximum memory	4.0 TB per socket, when populated with 256 GB DDR5.
Memory slots	16 DIMM slots per socket.
Memory type	HPE DDR5 Smart Memory
Memory protection features	HPE Fast Fault Tolerant Memory Advanced ECC Memory Online Spare Memory Mirrored Memory
Drive supported	Up to 4 LFF SAS/SATA HDDs or SSDs. Up to 8+2 SFF SAS/SATA HDDs or SATA/SAS/NVMe U.3 SSDs, depending on model. Up to 20 EDSFF E3.s 1T NVMe SSD. Up to 2 RAID1 NVMe M.2 Boot device (Internal modular or external accessible from rear wall).
Optical drive type	Optional - HPE 9.5mm SATA DVD-RW Optical Drive, HPE Mobile USB DVD-RW Drive.
Security	UEFI Secure Boot and Secure Start support. Intel® Software Guard Extensions (SGX) support. Immutable Silicon Root of Trust. Optional Trusted Supply Chain, iLO Security modes, TPM, Chassis Intrusion detection and Bezel Locking kits.
Infrastructure management	Included - HPE iLO Standard with Intelligent Provisioning (embedded), HPE OneView Standard (requires download). Optional - HPE iLO Advanced, HPE OneView Advanced and HPE Compute Ops Management (optional subscription available)
Power supply type	HPE 500W Flex Slot Platinum Hot Plug Power Supply (available only in 4LFF CTO server), HPE 800W Flex Slot Platinum Hot Plug Power Supply, HPE 800W Flex Slot Titanium Hot Plug Power Supply, HPE 1000W Flex Slot Titanium Power Supply, HPE 1600W Flex slot Platinum Hot Plug Power Supply, HPE 1600W DC Power supply, HPE 1600W Flex Slot - 48VDC Hot Plug Power Supply, HPE 1800W-2200W Flex Slot Titanium Hot Plug Power Supply.
Expansion slots	Maximum 3 PCIe Gen5 slots and maximum 2 OCP 3.0 PCIe5 slots, for detail descriptions please see QuickSpecs.
Network controller	Wide range of speeds, cabling, chipsets and form factors (PCIe stand-up adapter and OCP3.0). Please see QuickSpecs for network card choices.

Technical specifications	HPE ProLiant DL360 Gen11
Storage controller	Included - Embedded SATA controller (AHCI or Intel SATA Hybrid RAID controller) Optional - HPE Smart Array Gen11 Storage Controller in Variety of protocols -including NVMe-, port count, array utilities, and form factors (PCIe stand-up adapter and OCP3.0). Please see QuickSpecs for storage controllers selection.
System fan features	Standard Fan Kit (Q'ty 5), Standard Fan Kit (Q'ty 2) for 2nd Processor, Performance Fan Kit (Q'ty 7), Close Loop Liquid Cooling Heatsink & Fan kit, Direct Liquid Cooling Solution.
Form factor	1U Rack
Warranty	3/3/3: Server Warranty includes three years of parts, three years of labor, and three years of onsite support coverage. Additional information regarding worldwide limited warranty and technical support is available at: https://support.hpe.com/hpesc/public/docDisplay?docId=sd00004309en_us . Additional HPE support and service coverage, to supplement the product warranty, is available. For more information, visit https://www.hpe.com/support .
Accelerators	Optional

[1] Hardware RAID controller support in EDSFF storages available Q2 2024

HPE Services

No matter where you are in your transformation journey, you can count on HPE Services to deliver the expertise you need when, where and how you need it. From strategy and planning to deployment, ongoing operations and beyond, our experts can help you realize your digital ambitions.

Advisory & Professional services

Experts can help you map out your path to hybrid cloud and optimize your operations.

Managed services

HPE runs your IT operations, giving you unified control, so can focus on innovation.

Support services

Optimize your entire IT environment and drive innovation. Manage day-to-day IT operational tasks while freeing up valuable time and resources.

- **HPE Complete Care Service:** a modular service designed to help optimize your entire IT environment and achieve agreed upon IT outcomes and business goals. All delivered by an assigned team of HPE experts.
- **HPE Tech Care Service:** the operational service experience for HPE products. The service provides access to product specific experts, an AI driven digital experience, and general technical guidance to help reduce risk and search for ways to do things better.
- **HPE Multivendor Services:** Single point of accountability for managing on-site hardware and software support for multivendor products. HPE experts help manage your IT across technologies and platforms for HPE and non-HPE technologies, acting as the single point of contact for your IT operational needs.

Lifecycle Services

Address your specific IT deployment project needs with tailored project management and deployment services.

HPE Education Services

Training and certification designed for IT and business professionals across all industries. Create learning paths to expand proficiency in a specific subject. Schedule training in a way that works best for your business with flexible continuous learning options

Defective Media Retention is optional and allows you to retain Disk or eligible SSD/Flash Drives replaced by HPE due to malfunction.

HPE GreenLake

[HPE GreenLake edge-to-cloud platform](#) is HPE's market-leading as-a-Service offering that brings the cloud experience to apps and data everywhere – data centers, multi-clouds, and edges – with one unified operating model, on premises, fully managed in a pay per use model.

If you are looking for more services, like **IT financing solutions**, please [explore them here](#).
