

# Scattering Tube Instructions

## PARTS

Disassemble the scattering tube and ensure you have the following parts:

OUTER TUBE

INNER TUBE

LID

STICKER

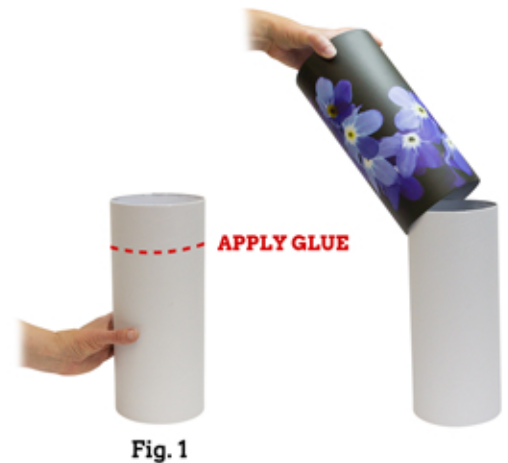

GLUE  
(Optional, Not Included)

FUNNEL  
(Optional, Not Included)

## INSTRUCTIONS

- 1 FILL THE INNER TUBE**  
Place the inner tube on a flat surface. Slowly fill the inner tube with ashes. A funnel may be used to make this process easier.
- 2 PREPARE THE SCATTERING TUBE FOR SEALING (Optional)**  
Squeeze a thin line of household glue around the top of the inner tube, approximately one inch below the rim. See Fig. 1
- 3 JOIN THE INNER AND OUTER TUBES**  
Slide the decorative outer tube carefully over the inner tube until it is firmly in place.
- 4 APPLY THE LABEL**  
Once the inner tube is securely encased by the outer tube, place the sticker over the outer tube's vent hole.
- 5 FIT THE LID**  
Flip the scattering urn over and slide the lid onto the tube.
- 6 SCATTER**  
Once you are ready to scatter, remove the lid. Carefully punch out the perforated tab on the top and gently scatter the ashes.
