Beautiful skin is in our nature.

Herbacin Brand Store Frankfurt, Erfurt and Eisenach, Germany

Herbacin – A European tradition

One of Germany's oldest herbal personal care brands – heritage and tradition combined with ground-breaking trends – resulted in a product line that has stood the test of time. This German family-run company began as an idea when, in 1900, two pharmacists living in the idyllic area of Thuringia had a brilliant thought: "to create a new personal care formula inspired from the heart of nature." Little did they know that this would result in a global beauty success story.

Pharmacists Otto and Hedwig König officially founded Herbacin in Eisenach, Germany in 1905 and very early on created a distinctive brand image that is still the foundation of Herbacin today. It pays homage to the close proximity of deep green forests and flowering meadows where the popular brand had its roots.

Long before natural cosmetics became popular, Herbacin products were known and sought after for their quality and efficacy. Now the brand has grown to become a complete herbal face, body and hair care range, with all the products researched, developed, and produced at Herbacin's own production facilities and research labs in Germany.

"Made In Germany" Still Stands For Quality

And for good reason. We take carefully selected ingredients of the highest quality. Corporate management, production and delivery of the finished products are all brought together at our headquarters based in Wutha-Farnroda, located at the edge of the beautiful Thuringian Forest. In our Herbacin corporate stores in Frankfurt, Erfurt and Eisenach you will find not only our Herbacin heritage products, but the whole variety of our Herbacin range. We look forward to welcoming you.

At Herbacin we strive for perfect harmony and give priority to only the best, most skin-compatible, effective, carefully selected plant-based ingredients for the manufacture of our cosmetic products.

We do not use raw materials derived from animals. Vegetarians and vegans can use our products, too.

Herbacin is strictly opposed to the animal testing now banned for cosmetics in the EU. Our cosmetics are tested for compatibility exclusively on voluntary test subjects at independent testing institutes.

We want to make not only your skin and hair look and feel beautiful, but also our environment. Therefore, we try to convey our products as eco-friendly and efficient as possible. The same goes for all of our packaging, which is 100% recyclable.

We produce locally, in the heart of Germany. For our high-quality products, we use extracts from fruits, spices and herbs, essential oils and plant-based butters that primarily stem from controlled organic cultivation.

We use the latest digital technology, as we believe in a simple, convenient and completely safe online shopping experience.

Herbacin Hand Care – Proven chamomile formula All-Around Skin Protection – All Day, Every Day.

Herbacin Hand and Body care is not only one of our globally most popular, gentle-acting skin care line it is also our first. It originated from its natural roots in the nature reserve near Hörsel in Thuringia and took its inspiration not only from the deep green forests and flowering meadows, but Herbacin's own biodynamic herb cultivation. This close connection to nature culminated in the familiar and distinct Herbacin brand image. Herbacin hand and body care products, created especially for busy modern living, have become the perfect all-around everyday protection for skin, hands and nails for both women and men around the world.

Wellness Hand Cream

Hands Can Get Wrinkles Too... Keep Your Hands Looking Young.

Hands are often overlooked, but they can age us too! They are the most used and abused part of the body, constantly in and out of water, exposed to the elements and environmental stresses and, if not properly protected, will age before their time. All the more reason to show them some TLC with a rich hand care therapy to prevent skin from drying out and cracking. Our Herbacin Wellness Hand Cream counteracts daily stress and premature aging of the skin with intensive skin care and protection.

Foot Care

Step Out In Style....

Revitalizing Treatments For Legs And Feet.

Throughout our lives we put about 270 million steps behind us - i.e. about 160,000 kilometers. That means we could have circled the globe four times. Our poor feet take a beating every day, no matter what they are wearing! Taking care of your feet and legs has never been easier. Our comprehensive Herbacin Foot Care program features three perfectly coordinated natural products with advanced formulations to care for and pamper your feet and legs every day.

Relaxation For Legs

1.0 fl.oz. tube / **32297**
3.4 fl.oz. tube / **32273**

Herbacin Foot Care Leg Lotion offers instant stress relief and relaxation for tired legs. Natural avocado and almond oil combine with chamomile blossom extract to hydrate, soothe and nourish the sensitive skin of your legs. To help improve circulation, the active ingredients of red vine leaves and horse chestnut strengthen the veins and enhance the blood flow in your legs. Carnosine and Vitamin E help bind free radicals to reinforce the cell membrane. Additionally, carnosine reduces the reaction between sugar molecules, collagen and elastin fibers to improve skin elasticity and delay its aging.

- chamomile from controlled organic farming
- 100% paraben and mineral oil free
- without PEG's
- no animal derived ingredients
- free of artificial colors
- also recommended for diabetics

At-Home Foot Massage

1.0 fl.oz. tube / **22656**
3.4 fl.oz. tube / **22588**

Herbacin Foot Care Foot Cream with chamomile and urea provides ultimate moisturizing for sensitive and highly stressed feet. Natural oils of chamomile extract, allantoin and panthenol soothe and regenerate the skin. Carnosine and Vitamin E bind free radicals to strengthen the cell membrane. Carnosine reduces the reaction between sugar molecules, collagen and elastin fibers, enhancing your skin's elasticity and delaying its aging. Massaged daily into clean, dry skin, Herbacin Foot Care Cream also prevents corns, calluses and cracks, keeping feet looking and feeling their best.

Cool It!

1.0 fl.oz. tube / **22663**
3.4 fl.oz. tube / **22601**

Herbacin Foot Care Cooling Gel is the perfect way to cool down hot feet and tired, heavy legs. With its cooling care complex of menthol, methyl lactate and camphor, it not only ensures long-lasting, delightfully invigorating freshness, but its active ingredients of red vine leaves and horse chestnuts simultaneously strengthen and tone the veins, enhancing the blood flow in your legs. Our hydrating Herbacin Cooling Gel absorbs quickly without leaving a sticky film on your skin, while leaving your feet and legs feeling refreshed and revived.

Face Care

Why Should Your Skin Age Earlier Than You?

The Herbacin Face Care range was developed specifically for today's woman – multi-faceted with different lifestyles, but one thing in common – looking for skin care products that will help prevent premature skin aging. Unlike men, women produce estrogens in their skin that help keep it plumped and supple. The skin-aging process begins in our mid-twenties, and in women, it is accelerated with decreasing estrogen levels, most notably during menopause. The effect is that skin retains less and less moisture, making it drier and less smooth. It loses its elasticity and wrinkles become deeper and more visible. Our luxurious Herbacin Face Care series was designed to naturally and gently counteract the effects of skin aging. Beautiful skin begins with the best ingredients and a commitment to a daily regime, and it is never too early to begin.

Say good-bye to make-up residues and environmental influences on your facial skin!

6.7 fl.oz. bottle / 23110

Herbacin Face Care Face Tonic completes a thorough cleansing of face, neck and décolleté. Made with plant-based glycerine and a natural extract of white lupins, this balancing facial toner concludes your cleansing routine. After gently cleansing with Herbacin Face Care Cleansing Milk, the tonic clarifies your skin down to the pores and leads into the next step in the skin care routine. Plant-based myo-inositol stimulates the regulation of the skin's lipid balance. The sebum content is regulated upwards in dry, lipid-poor skin ... and downwards in oily skin.

Refreshing cleansing power – for a clear, fresh, and radiant complexion.

6.7 fl.oz. bottle / 22908

Herbacin Face Care Cleansing Milk is a thorough and water-soluble cleanser for face, neck, and décolleté that is particularly gentle on your skin. Formulated with valuable jojoba and sweet almond oil, it protects the skin's hydrolipidic film while leaving you with a clear, fresh, and radiant complexion. Vegetable glycerine plus natural white lupine and ripe melon extracts promote optimal skin hydration. After gently cleansing your skin with Herbacin Face Care Cleansing Milk, it will feel clean deep down to the pores, ready for additional skin care. New make-up or other skin care products can be applied immediately afterwards.

The gentle cleansing oil for soft, clear skin down to the pores

Herbacin Face Care Cleansing Oil

Easy to use, cleansing down to the pores, moisturizing – our Herbacin Cleansing Oil offers it all. The naturally formulated cleansing oil is perfect for removing intensive face and eye make-up, excess sebum and environmental pollutants. The mild surfactants made of renewable raw materials even remove waterproof make-up and mascara – gently, but down to the pores. Herbacin Cleansing Oil cleanses delicately without leaving an unpleasant, greasy film behind. High-quality almond oil pampers the skin and provides intense moisture. Our cleansing oil is suitable for all skin types. Mild surfactants remove dirt and excess sebum, and, in combination with natural almond oil, are beneficial to the skin flora. Dry skin benefits from the lipid-replenishing ingredients. Herbacin Cleansing Oil is also suitable for removing make-up from oily skin. While particularly harsh cleansing products can cause the skin to increase its sebum production, gentle cleansing with an oil can help normalize sebum production.

Camouflage For Men Who Want More!

Men's skin has a thicker epidermis and ages at a much slower rate than women's skin. It is also more prone to acne and skin irritations due to its higher sebaceous production, impurities and strong facial hair growth. The Herbacin Camouflage skin care program for men has been specially created to help men take care of their skin with no-fuss, no-nonsense products. A quick and easy way to clean, smooth and nourish skin with the finest botanical ingredients, Herbacin Camouflage is a fresh and healthy way to great skin. The natural and gentle formulations are perfect for all skin types, expertly created for men's facial care and shaving needs.

Total Care

Herbacin Camouflage Moisturizing Face Balm

Protects, hydrates, and nourishes skin with almond oil, avocado oil, hyaluronic acid, carnosine and dex-panthenol.
