

Lesson 1  
**SKIN 101**

**Explore the skin diagram above.**  
Discuss the structure of skin.  
Did you know the skin was made up  
of so many different elements?

- |                      |                           |                                 |
|----------------------|---------------------------|---------------------------------|
| <b>1. Epidermis</b>  | <b>5. Pores</b>           | <b>8. Sebaceous (oil) gland</b> |
| <b>2. Dermis</b>     | <b>6. Hair shaft</b>      | <b>9. Sweat pore</b>            |
| <b>3. Hypodermis</b> | <b>7. Stratum corneum</b> | <b>10. Hair follicle</b>        |
| <b>4. Muscle</b>     |                           |                                 |
