## 14 WLF GASKETLESS FERRULE

**CLEANER. SIMPLER. SAFER.**

- No special hardware or clamp required
- Reduces foreign material risk
- Recommended to use as a set (ARMI Gasket-less Ferrule with ARMI female ferrule)
- Available in sizes:
  - ARMI Gasketless Ferrule: 1.5" - 10"
  - ARMI Long Weld Ferrule: 1.5" - 6"
- Made from 304/304L stainless-steel with near polished sanitary finish for quality and durability
- 3-A certification
- Can be used in both hot and cold applications

### RECOMMENDED USE

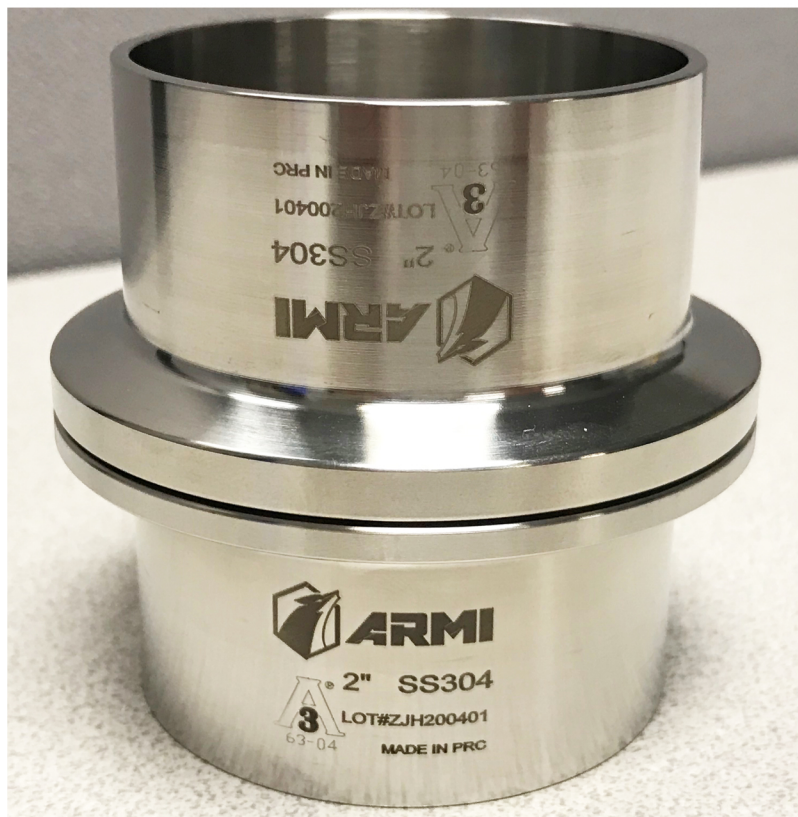

- Most flowable food products, liquids, marinades and oils
- Low to moderate pressure or vacuum applications
- Not intended for high-pressure or CIP applications

### CLEANING/SANITATION

ARMI Gasketless Ferrules are 3-A certified for COP or Manual clean only. Not intended for CIP or Steam Sterilize applications.

### INSTALLATION

ARMI does not claim that a gasketless ferrule connection is leak proof nor does ARMI guarantee success of gasketless ferrule in every application. User should evaluate application for suitability.

### LIMITED WARRANTY

ARMI shall not be indemnified by any and all parties, including but not limited to, distributors, contractors, or end-users, and will also not be held liable for any losses incurred by any parties, directly or indirectly, after product has been installed or used in any way, or as a result of improper installation, modifications to, corrosion or dilapidation, misuse, unintended use, abuse, or damages sustained otherwise. ARMI reserves the right to repair, replace, credit or reject any defective product at the company's discretion.
