

## V27, K5.6

Standard Spray; Upright, Pendent and Recessed Pendent

**MODELS/S.I.N. V2703 AND V2707 STANDARD RESPONSE**  
**MODELS/S.I.N. V2704 AND V2708 QUICK RESPONSE**

These Model V27 standard spray sprinklers are designed to produce a hemispherical spray pattern for standard commercial applications. They are available with either standard or quick response bulbs. The design incorporates state-of-the-art, heat responsive, frangible glass bulb design (standard or quick response) for prompt, precise operation.

The die cast frame is more streamlined and attractive than traditional sand cast frames. It is cast with a hex-shaped wrench boss to allow easy tightening from many angles, reducing assembly effort. This sprinkler is available in various temperature ratings (see chart on page 2) and finishes to meet many design requirements.

The recessed pendent should be utilized with a Model V27 recessed escutcheon which provides up to 3/4" (19 mm) of adjustments.

### SPRINKLER OPERATION

The operating mechanism is a frangible glass bulb which contains a heat responsive liquid. During a fire, the ambient temperature rises causing the liquid in the bulb to expand. When the ambient temperature reaches the rated temperature of the sprinkler, the bulb shatters. As a result, the waterway is cleared of all sealing parts and water is discharged towards the deflector. The deflector is designed to distribute the water in a pattern that is most effective in controlling the fire.

### COVERAGE

For coverage area and sprinkler placement, refer to NFPA 13 standards.

### TECHNICAL SPECIFICATIONS

*Exaggerated for clarity*

Models/S.I.N.: V2703, V2704, V2707, V2708

**Style:** Pendent, Upright or Recessed Pendent

**Nominal Orifice Size:** 1/2" / 13 mm

**K-Factor:** 5.6 Imp./8.1 S.I.<sup>^</sup>

**Nominal Thread Size:** 1/2" NPT/15 mm

**Max. Working Pressure:**

175 psi/1200 kPa FM Global

250 psi/1725 kPa UL

**Factory Hydrostatic Test:**

100% @ 500 psi/3450 kPa

**Min. Operating Pressure:** 7 psi/48 kPa

**Temperature Rating:** See charts on page 2 & 3.

### MATERIAL SPECIFICATIONS

**Upright Deflector:** Bronze per UNS C22000

**Pendent Deflector:** Bronze per UNS C51000

**Bulb:** Glass with glycerin solution.

Bulb Nominal Diameter:

- Standard: 5.0 mm
- Quick Response: 3.0 mm

**Load Screw:** Bronze per UNS C65100

**Pip Cap:** Bronze per UNS C65100

**Spring:** Beryllium nickel

**Seal:** Teflon\* tape

**Frame:** Die cast brass 65-30

**Lodgement Spring:** Stainless steel per UNS S30200

### ACCESSORIES

#### Installation Wrench:

- Open End: V27
- Recessed: V27-2

#### Finishes:

- Plain brass
- Chrome plated
- White painted\*\*
- Black painted\*\*
- Custom painted\*\*
- Proprietary nickel Teflon\* coating\*\*
- For 155, 200, and 286°F Standard Response Only, wax coated\*\*

For cabinets and other accessories refer to separate sheet.

**NOTE:** Weather resistant recessed escutcheons available upon request.

<sup>^</sup> For K-Factor when pressure is measured in Bar, multiply S.I. units by 10.0.

\* Teflon is a registered trademark of Dupont Co.

\*\*UL Listed for corrosion resistance in all configurations.

### NOTES:

- 1 Data shown is approximate and can vary due to differences in installation.
- 2 These graphs illustrate approximate trajectories, floor-wetting, and wall-wetting patterns for these specific Victaulic FireLock automatic sprinklers. They are provided as information for guidance in avoiding obstructions to sprinklers and should not be used as minimum sprinkler spacing rules for installation. Refer to the appropriate NFPA National Fire Code or the authority having jurisdiction for specific information regarding obstructions, spacing limitations and area of coverage requirements. Failure to follow these guidelines could adversely affect the performance of the sprinkler and will void all Listings, Approvals and Warranties.
- 3 All patterns are symmetrical to the centerline of the waterway.

### WARRANTY

Refer to the Warranty section of the current Price List or contact Victaulic for details.

### NOTE

This product shall be manufactured by Victaulic or to Victaulic specifications. All products to be installed in accordance with current Victaulic installation/assembly instructions. Victaulic reserves the right to change product specifications, designs and standard equipment without notice and without incurring obligations.
