

## Coupling, Full

Check up to five results to perform an action.

[larger image](#)

- **Standard coupling, Schedule 40**
- National pipe threads in accordance with ANSI/ASME B1.20.1
- Fittings are right-hand threaded
- The fittings have a general conformance with dimensional standard MIL-DTL-52618-E
- Fittings are random tested at 120 pounds of air pressure under water, for a normal surface condition rating of 150 pounds of pressure
- Individual fittings are not marked with alloy or pressure data
- Fittings are not anodized
- **Note:** Extra-heavy couplings cannot be tested or certified for pressure rating

Dimensions available upon request
