

## SPRINKLER EXTENSIONS

Designed to be used as sprinkler head extensions when a drop nipple length has been cut too short or when the finished ceiling has changed from its intended location. Using the appropriate length extension will allow for realignment of the sprinkler head without removing and recutting the drop nipple.

- Forged brass body
- Hex shape for installation with wrench
- Fire safe
- One piece forged solid brass construction
- Available in 1/2" or 3/4" IPS and several lengths.
- Significant cost savings to the sprinkler installer.

1/2" IPS	3/4" IPS	Size
65-20-240	65-20-245	x 1/2" length
65-20-241	65-20-246	x 3/4" length
65-20-242	65-20-247	x 1" length
65-20-243	65-20-248	x 1-1/2" length
65-20-244	65-20-249	x 2" length

**Caution: Do not exceed  
15 foot pounds torque.  
Over tightening will cause  
the sprinkler extension to  
crack and leak.**

USE THIS PRODUCT AT YOUR OWN RISK. ARGCO WILL NOT PROVIDE FOR REPLACEMENT OF THIS PRODUCT NOR WILL WE BE RESPONSIBLE FOR ANY DIRECT OR CONSEQUENTIAL DAMAGES ASSOCIATED WITH THE USE OF THIS PRODUCT. This product should only be used when no other installation option is available and then only installed under controlled and supervised conditions. This product has neither been tested nor approved by any agency or authority as being a universally accepted product for the extension of sprinklers. Over-tightening will cause failure of the brass sprinkler extensions in almost every case. By installing this product you acknowledge that you accept responsibility for use of this product.
