HANG 'EM HIGH™ HOIST

The 'HANG 'EM HIGH' Hoist featuring the tough Rope Ratchet as the center point is designed for hoisting loads under 250 lbs. with a 2:1 Pulling Ratio. Easy to use, the pulley S-Hook is secured while the object to be hoisted is secured to the Ratchet hook. Once in place the Ratchet rope is pulled raising the item. There is no need to tie off as the Ratchet locks in place as the rope is pulled. To lower simply activate the Rope Pull Release. The unit weighs a light 1.5 lbs. and comes with 20' of sturdy, 3/8" Solid Braided Camouflage Rope. The perfect hoist for field use on Game Feeders, Field Dressing of Game and many other hoisting jobs at the workplace, shop or home.

ROPE RATCHET & HANG 'EM HIGH

**EASY TO USE
THUMB LEVER
RELEASES
TENSION!**

The versatile ROPE RATCHET answers all your tie-down needs for work or play. Our patented design and rugged construction helps you secure a wide variety of loads quickly and easily. ROPE RATCHET's easy to use design obsoletes old fashion tie-down methods like rope that requires cumbersome knots that slip, elastic cords that stretch, break and snap back and hard to use webbing type ratchets that spool and jam. With ROPE RATCHET you simply attach the two hooks and pull the loose end of the rope for a secure, tight hold. ROPE RATCHET stays tight, locking in place as you pull the free end. To loosen you just pull rope to reduce tension and push the handy Thumb Release. Unlike the other tie-down methods you never have to worry about stretching, snapping back, loosening or trying to work a complicated web type system.
