

# AutoCut™

## COPPER TUBING CUTTER

This is a great tool to have when you don't have enough swing room to use a full size tubing cutter. You can cut copper tubing with less than one inch of clearance. And it's ideal for stub-out work.

And it's quicker than conventional cutters. Just snap it on the tube, close the gate and turn in either direction. The cutter wheel automatically tightens as you turn the AutoCut—no knobs to twist. The cutter wheel is spring loaded to provide a constant cutting pressure, so you'll never accidentally crimp the tubing.

For extra leverage in awkward spaces, you can get a Ratchet Turning Handle. It slides over the AutoCut from either side for maximum ease of operation.

The AutoCut has long lasting hardened steel cutting wheels that are easy to replace when the time comes. Keep both a 1/2" and 3/4" AutoCut in your toolbox. Watch out though, they'll spoil you.

Catalog Number	For use with:	Standard Pack
ATC12 Copper Tubing Cutter	1/2" (13mm) copper tubing*	12
ATC 34 Copper Tubing Cutter	3/4" (20mm) copper tubing*	12
RH12 Ratchet Handle	ATC12 1/2" Tubing Cutter	8
RH34 Ratchet Handle	ATC34 3/4" Tubing Cutter	8
ATCW Replacement Cutter Wheels	ATC12 or ATC34	12/Cartridge

\*Not for use with soft copper.  
AutoCut Patent No. 5903980

# SuperSlice™

## A BETTER WAY TO CUT PLASTIC TUBING

A patented V-point blade pierces hard or soft plastic tubing, then slices through to give a clean, easy cut with virtually no tube deformation. The blade is offset to give you powerful, penetrating action with a minimum of force.

Use it on PVC, CPVC, irrigation pipe, plastic or rubber garden hose, and plastic electric conduit. One squeeze does the job. Ergonomically designed handles give you a sure grip with lots of leverage. Easily cuts tubing as large as one inch in diameter.

SuperSlice has the blade that gives you the edge.
