

## Female Hose Mender

- Made of non-corrosive, durable polymer with stainless steel screws and nuts.
- The patented impact resistant clamp design utilizes non-corroding high grade stainless steel screws that will resist stripping when being tightened.
- Leakproof, reusable and easy to install and can be used on rubber or plastic hose.
- Models 01M, 01F and 01HM can be used on 5/8" or 3/4" hose.
- Models 05M, 05F and 05HM can be used on 1/2" hose.
