

Endian 4i Edge Software

Industrial Cybersecurity on your IoT gateway

Now you can turn any IoT Gateway (x86) or industrial PC into an Endian 4i industrial cybersecurity appliance. The Endian 4i platform (powered by EndianOS) is tailored to the needs of the market to protect and connect industrial assets like PLCs, HMIs, RTUs and other SCADA systems.

The versatility of the solution to run on a wide selection of hardware makes it perfect for OEMs, manufacturers, large or special purpose projects. When paired with the Switchboard as part of the Secure Digital Platform, businesses get a complete solution that provides secure remote access and permission management.

Highlights

- ✓ Leverage your own hardware (x86_64)
- ✓ Efficient resource requirements
- ✓ Flexibility to change with your business needs
- ✓ Supports wide range of hardware and components
- ✓ No operating system required (included)
- ✓ High availability (supported)

Requirements and Compatibility

EndianOS 4i must be installed onto a dedicated machine with at least 2 NICs. The table below provides some recommended hardware specifications but remember that each network is different.

Architecture	Cores	Memory	Hard Drive
x86_64 architecture	2 cores	4GB	32GB

- Most common Network Interface Cards are supported including Gigabit and fiber NICs

Endian Licenses & Subscription

The Endian 4i subscription includes a complete set of services at a single all-inclusive price. A subscription provides industry-leading software and security services backed by expert-level support. Get the most from your Endian 4i with an easy-to-buy and easy-to-own subscription tailored for your business.

A subscription is required for every Endian product and for the 4i you just choose the duration of the subscription which can be 1 year, 3 years or 5 years.

With the subscription you get access to:

Premium security subscriptions

- IPS signatures
- DNS malware detection

Endian software

- Security updates
- Firmware updates & upgrades
- Security signatures updates

Endian technical support*

- Coverage 8*5 (see local office business hours)
- Priority ticket processing

* Reference to the Endian Support SLA

Endian Network

- Centralized device remote access
- Support and license management
