

Cosy+ for Industrial Remote Access

Cosy+ makes industrial remote access easy and secure like never before!

Provide effective and sustainable support of your machines from anywhere, at any time.

Cosy+

Allows you to securely and easily troubleshoot your machines remotely, through the global Talk2M service.

The new standard of secure remote access

State-of-the-art security

- **New** generation of devices with built-in **Hardware Security**
- Proven security posture :
 - **ISO 27001 certification** and cybersecurity partnership with NISO
 - Solution based on the latest **standard technologies**
- Machine **LAN segregation** to ensure that remote users can only access the target equipment
- **Local control** of the remote connectivity by the end-user, with an external key switch
- Increase safety with the digital output indicating an **active remote connection**

Easy

- **Straightforward setup**, to make any machine IIoT-ready in a matter of minutes
- Non-intrusive **outbound connections**, requiring no change on the existing network
- Start immediately with a **free Talk2M account** and reach your equipment in 2 clicks
- **Manage the connectivity** of all your machines and collaborators from one place

Powerful Talk2M VPN service

- **Global** and reliable infrastructure, with an extensive **Service Level Agreement**
- **Scalability**: add at any time as many devices and users as you need
- **Connect from any device**, with the free desktop, web and mobile apps
- **Email & SMS relay** services, to **receive notifications** from your machine
- **Traceability** of all remote activity through detailed logs and reports

Add value to every machine with Remote Access

- **Minimize downtime** through fast remote support
- **Save time and money** by avoiding unnecessary service trips
- **Improve** the engineers' well-being and **productivity**

Already trusted by over **20.000** customers around the world

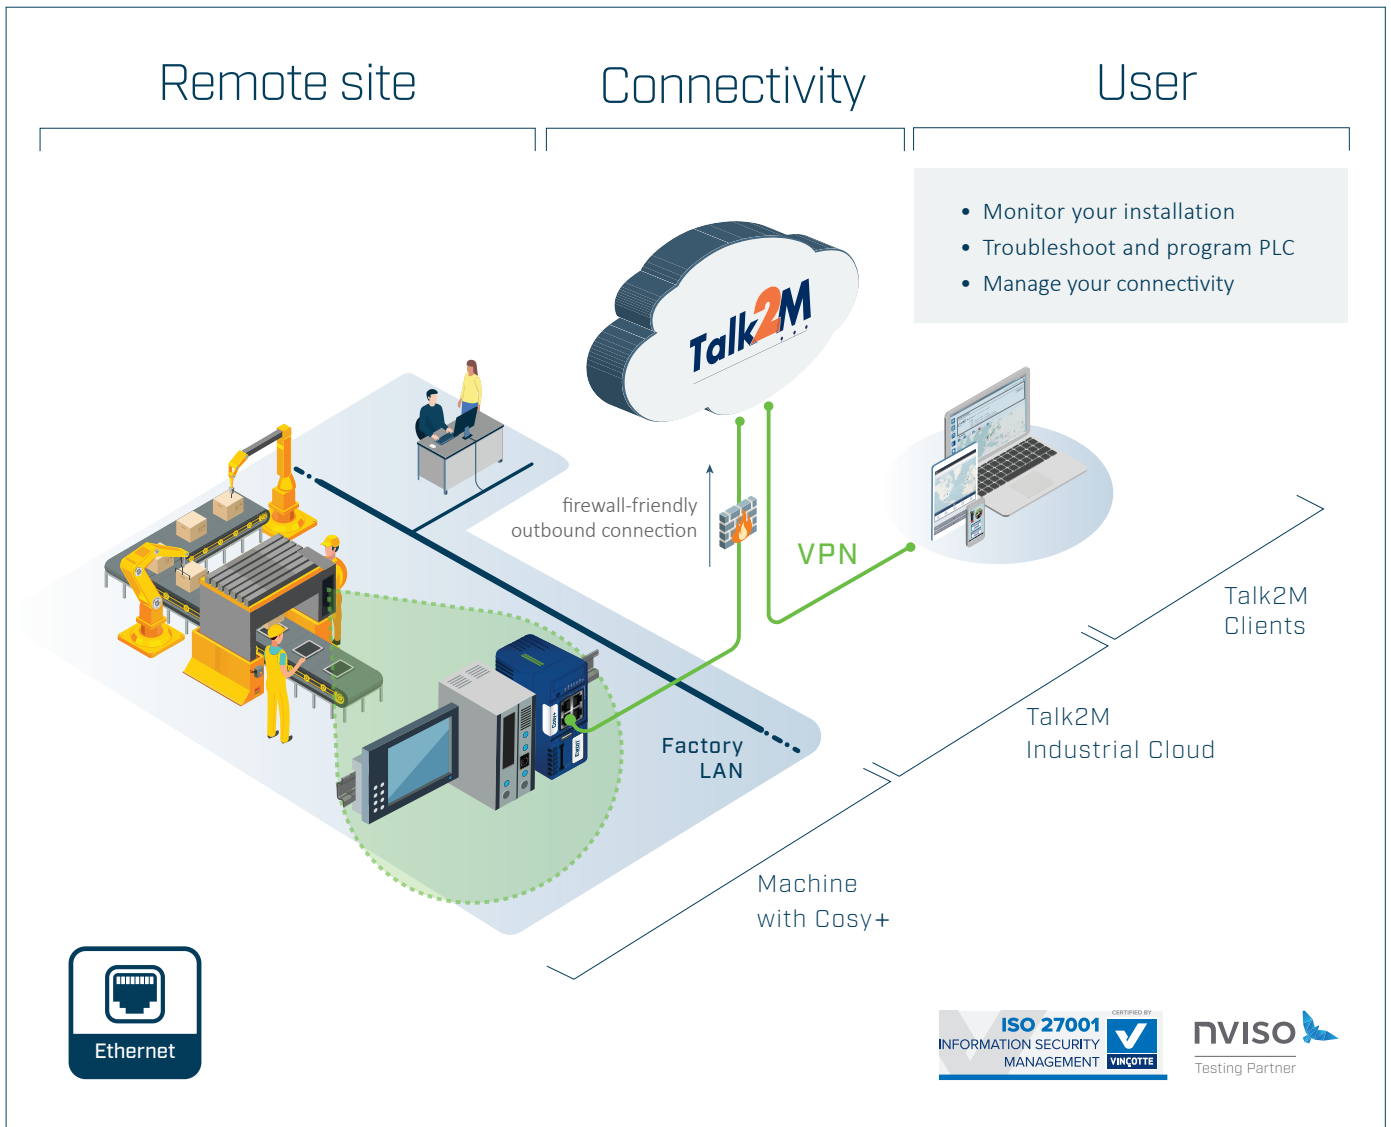

"After witnessing the power of Ewon's free Talk2M software, we have made Ewon a part of every machine we build. Additionally, installing and enabling the Ewon device is easy and take less than 10 minutes"

Kennedy Larramore - Electrical/IT Technician

"Talk2M allows us to handle a great many of our customers' issues in a short time, without putting our people through the unnecessary travel."

Josh Larson - Service Manager

Compatible with major PLC brands

Siemens

Rockwell
Automation

Mitsubishi
Electric

Schneider
Electric

Omron

... and many more

The leading industrial cloud service you can rely on, from anywhere in the world

20+ Data centers Worldwide infrastructure	400.000+ Ewon devices registered	178 Countries	40+ Million Secure VPN connections	Talk2M Pro Service with SLA
---	--	-------------------------	--	---------------------------------------

	Ethernet	WiFi	Cellular
Cosy +			 4G
Product Ref.	EC71330	Available end 2022	
WAN connectivity	LAN		
Ethernet	4 Configurable LAN/WAN ports		
USB	✓		
Input/Output	2x DI, 1x DO		
SD card reader	✓		
Power Supply	12-24 V DC +/-20%, LPS		
Temperature range	-25°C to +60°C		
Marking	CE, UL, FCC, IC		
Warranty	36 months		
Mechanical, Standards & Directives	Download Ewon Cosy+ Datasheet from our website https://ewon.biz/products/cosy
