Dive into Talk2m plans & features

Ewon's remote connectivity solution is made possible by a seamless integration between its gateways (Cosy, Flexy) and Talk2m.
As a result, all Ewon devices are provided with industrial cloud connectivity, free of charge.
As your business grows and management needs evolve, we recommend upgrading to Talk2m light or Talk2m pro.
Explore our range of tailored Talk2m plans designed to meet diverse connectivity needs!
