WHOLESALE NURSERY**

NEW TREES FOR CHANGING CLIMATES

PLANT LIST

NEW TREES

"New Trees" are good candidates for planting in California now. All trees selected for this collection come from warmer climates that resemble the future predicted for our state. They are largely native to California, the deserts of the Southwestern United States and Mexico, or Australia. Each tree was chosen because of its suitability for the future. Some are native to our interior regions, but will also perform well along the warming coast. Others can better tolerate summer-irrigated landscapes because they come from warm/arid climates with summer rainfall. These tried-and-true species will survive with little or no human input - the kind of tree you might see thriving at an abandoned home site despite receiving no care for a generation. We encourage you to consider these New Trees and their suitability for your projects.

All of our recommended trees are in production at Devil Mountain Wholesale Nursery, where we utilize an air root pruning production system that results in an incredibly well developed and efficient root system, free of circling and girdling roots. Sourcing trees from Devil Mountain means that you can rely on this best-in-industry quality. Custom Grow services are available; please contact customgrow@devilmountainnursery.com.

ROOTS MATTER

From seedlings to fully grown trees, we hold ourselves to the highest standard. We take pride in our unique growing process which ensures that your trees have an excellent root system to help them thrive in the landscape.

PLANT LIST

- | | | |
|---|--|---|
| 1. <i>Acacia cognata</i> | 13. <i>Eucalyptus spathulata</i> | 25. <i>Quercus x comptoniae</i> |
| 2. <i>Angophora costata</i> | 14. <i>Eucalyptus torquata</i> | 26. <i>Quercus engelmannii</i> |
| 3. <i>Brachychiton discolor</i> | 15. <i>Ficus religiosa</i> | 27. <i>Quercus gambelii</i> |
| 4. <i>Casuarina glauca</i> | 16. <i>x Gordlinia grandiflora</i> | 28. <i>Quercus gravesii</i> |
| 5. <i>Corymbia citriodora</i> | 17. <i>Hakea drupacea</i> | 29. <i>Quercus hypoleucoides</i> |
| 6. <i>Eucalyptus cinerea</i> | 18. <i>Harpephyllum caffrum</i> | 30. <i>Quercus ithaburensis</i> |
| 7. <i>Eucalyptus erythrocorys</i> | 19. <i>Lyonothamnus aspleniifolius</i> | 31. <i>Quercus oblongifolia</i> |
| 8. <i>Eucalyptus neglecta</i> | 20. <i>Olea europaea</i> 'Swan Hill' | 32. <i>Quercus tomentella</i> |
| 9. <i>Eucalyptus platypus</i> | 21. <i>Pistacia chinensis</i> 'Red Push' | 33. <i>Quercus rugosa</i> |
| 10. <i>Eucalyptus polyanthemos</i> | 22. <i>Platanus racemosa</i> 'Roberts' | 34. <i>Quercus virginiana</i> 'Sky Climber' |
| 11. <i>Eucalyptus prava</i> | 23. <i>Quercus canbyi</i> | 35. <i>Quillaja saponaria</i> |
| 12. <i>Eucalyptus sideroxylon</i> 'Rosea' | 24. <i>Quercus castaneifolia</i> | |

***Acacia cognata* | Bower Wattle, River Wattle**

An evergreen tree with a graceful, weeping habit. Lush-looking, narrow, bright green leaves cover the branches. Bright yellow, ball-like flower clusters bloom in winter.

Landscape uses: hedge, screen

USDA zones: 9-11 | Sunset zones: 16-24 | Mature Size: 20-30' H x 15-25' W |
Light needs: full sun | Water needs: low

Current Sizes Available: 5g | 15g | 24"

Notes: _____

***Angophora costata* | Smooth Barked Apple**

Native to Australia, this evergreen tree has an upright and spreading habit. Gray bark exfoliates to reveal rusty-red layers underneath. Leaves are lanceolate, and lustrous dark green. Small white flowers in summer.

Landscape uses: specimen

USDA zones: 8-11 | Sunset zones: 4-24 | Mature Size: 65' H x 30-50' W |
Light needs: full sun | Water needs: moderate

Current Sizes Available: 15g | 24" | 36"

Notes: _____

***Brachychiton discolor* | Queensland Lacebark**

Semi-deciduous tree with a stout trunk and conical habit. Leaves are palmately lobed and deep bluish-green with pale green felted undersides. Showy, deep pink or red bell-shaped flowers are followed by fruits.

Landscape uses: street tree

USDA zones: 10-12 | Sunset zones: 15-24 | Mature Size: 25-65' H
x 20-30' W | Light needs: full sun | Water needs: low

Current Sizes Available: 15g | 24"

Notes: _____

***Casuarina glauca* | Swamp Oak**

A fast growing evergreen tree with long, feathery, needle-like leaves. Bark is grayish-brown and scaly. Leaves cascade from drooping branches. Native to Australia.

Landscape uses: erosion control, hedge, screen

USDA zones: 9-11 | Sunset zones: 8, 9, 12-24 | Mature Size: 25-65' H
x 20-30' W | Light needs: full sun | Water needs: low

Current Sizes Available: 15g | 24"

Notes: _____

***Corymbia citriodora* | Lemon-Scented Gum**

An evergreen tree with a tall, narrow trunk that graduates to an open-branching crown. Bark is smooth and whitish in color. Leaves are lemon-scented, lance-shaped, and yellowish-green. Inconspicuous white flowers. Native to Australia.

Landscape uses: specimen

USDA zones: 8-11 | Sunset zones: 5, 6, 8-24 | Mature Size: 100' H
x 25-45' W | Light needs: full sun | Water needs: low

Current Sizes Available: 15g | 24" | 36"

Notes: _____

***Eucalyptus cinerea* | Silver Dollar Tree, Argyle Apple**

An evergreen tree with an open-branching crown. Bark is brown and exfoliating. Young leaves are silvery green, coin shaped, and are often used in floral arrangements. Mature leaves are medium green and lance shaped. Inconspicuous white flowers. Native to Australia, tolerates coastal exposure.

Landscape uses: screen, specimen

USDA zones: 9-11 | Sunset zones: 5, 6, 8-24 | Mature Size: 20-50' H x 20-40' W | Light needs: full sun | Water needs: low

Current Sizes Available: 15g | 24"

Notes: _____

***Eucalyptus erythrocorys* | Red-Cap Gum**

A fast growing small tree with a broad, low branching canopy. Leaves are long and sickle-shaped, and a smooth white trunk is spotted with patches of rough brown bark. Showy yellow flowers pop out of red-capped buds in fall & spring.

Landscape uses: screen

USDA zones: 9-11 | Sunset zones: 16-24 | Mature Size: 15-25' H x 8-10' W | Light needs: full sun | Water needs: moderate

Current Sizes Available: 15g | 24"

Notes: _____

***Eucalyptus neglecta* | Omeo Gum**

A fast growing and large evergreen tree. Juvenile leaves are broad, rounded, and deep bluish green. Mature, elongated leaves emerge after ten to fifteen years of growth. Cut foliage is often used in flower arrangements.

Landscape uses: specimen

USDA zones: 7-10 | Sunset zones: 5, 6, 8-24 | Mature Size: 40-60' H x W |
Light needs: full sun to part shade | Water needs: low

Current Sizes Available: 15g | 24"

Notes: _____

***Eucalyptus platypus* | Platypus Gum, Round-Leaved Moort**

Evergreen tree with a dense and spreading form. Bluish-green leaves are oval in shape, bark is smooth and light brown in color and later matures to gray. Abundant, creamy white flowers are available in spring and summer. Attracts birds & pollinators.

Landscape uses: screen

USDA zones: 8-10 | Sunset zones: 5, 6, 8-24 | Mature Size: 25-35' H
x 15-35' W | Light needs: full sun | Water needs: low

Current Sizes Available: 24"

Notes: _____

***Eucalyptus polyanthemos* | Silver Dollar Gum**

An evergreen tree with an upright growth habit and dense, trailing foliage. Bark is tan and exfoliating. Young leaves are gray-green and circular. Mature leaves are dark green and lance to sickle-shaped. Small, white flowers are inconspicuous. Native to Australia.

Landscape uses: street tree, specimen

USDA zones: 8-11 | Sunset zones: 5, 6, 8-24 | Mature Size: 30-75' H
x 15-45' W | Light needs: full sun | Water needs: low

Current Sizes Available: 15g | 24"

Notes: _____

***Eucalyptus prava* | Orange Gum**

Native to Australia, this evergreen tree has an upright and spreading habit. Gray bark exfoliates to reveal rusty-red layers underneath. Leaves are lanceolate, and lustrous dark green. Small white flowers in summer.

Landscape uses: specimen

USDA zones: 10-12 | Sunset zones: 15-24 | Mature Size: 25-65' H
x 20-30' W | Light needs: full sun | Water needs: low

Current Sizes Available: 15g | 24" | 36"

Notes: _____

***Eucalyptus sideroxylon* 'Rosea' | Pink Ironbark**

An evergreen tree with an upright, open form. Bark is smooth and white to light gray. Leaves are blue-gray to dark green, lance-shaped, and tinged bronze in winter. Fluffy pink flowers bloom in summer. Native to Australia.

Landscape uses: street tree, specimen, screen

USDA zones: 9-11 | Sunset zones: 5, 6, 8-24 | Mature Size: 30-90' H x 30-60' W | Light needs: full sun | Water needs: low

Current Sizes Available: 15g | 24"

Notes: _____

***Eucalyptus spathulata* | Swamp Mallee**

An evergreen Australian native tree with gracefully arching, slender trunks lined with smooth red bark that exfoliates to reveal white underneath. Shiny, grayish green leaves are linear & held at branch tips. Creamy golden yellow flowers in summer, followed by fruits. Highly salt tolerant.

Landscape uses: screen

USDA zones: 9-11 | Sunset zones: 16-24 | Mature Size: 25-40' H x 15-20' W | Light needs: full sun | Water needs: low

Current Sizes Available: 15g | 24"

Notes: _____

***Eucalyptus torquata* | Coral Gum**

A small evergreen tree with a narrow columnar habit. Foliage is light green to yellowish-green, and reddish flower buds burst open to reveal coral red & yellow blooms throughout the year.

Landscape uses: shade tree, specimen

USDA zones: 8-10 | Sunset zones: 5, 6, 8-24 | Mature Size: 20-30' H x 15-30' W | Light needs: full sun to part shade | Water needs: low

Current Sizes Available: 15g | 24"

Notes: _____

***Ficus religiosa* | Peepul Tree, Bodhi Tree**

A large, semi-evergreen tree with smooth dark brown bark & light green, simple, ovate leaves. Historically recognized as a sacred tree & often found in religious sites, as hinted to by the species name.

Landscape uses: shade tree, specimen

USDA zones: 10-12 | Sunset zones: 13, 19, 21, 23-24 | Mature Size: 80-100' H x 60-100' W | Light needs: full sun to part shade | Water needs: low

Current Sizes Available: 15g | 24"

Notes: _____

***x Gordlinia grandiflora* | Mountain Gordlinia**

A fast growing hybrid evergreen shrub or tree with large, white camellia-like flowers during summer & fall months. Elongated semi-evergreen leaves are deep green, and some adopt shades of orange & red in fall, while the others remain green.

Landscape uses: shade tree, specimen

USDA zones: 7-9 | Sunset zones: 4-9, 16-22 | Mature Size: 20-30' H x 8-15' W | Light needs: full sun to part shade | Water needs: moderate

Current Sizes Available: 5g | 15g | 24"

Notes: _____

***Hakea drupacea* | Sweet Hakea**

A unique & ornamental shrub or small tree, with conifer-like foliage and habit. Sharp, compound leaves are tough, and showy white pincushion flowers are fragrant. Flowers are followed by brown fruit capsules. Native to Southwestern Australia.

Landscape uses: hedge, screen

USDA zones: 8-11 | Sunset zones: 9, 12-17, 19-24 | Mature Size: 10-20' H x W | Light needs: full sun | Water needs: low

Current Sizes Available: 15g | 24"

Notes: _____

***Harpephyllum caffrum* | South African Wild Plum**

Tropical evergreen tree with an upright, rounded form & rough gray bark. Emerald green sickle-shaped leaves crowd branch tips. Small creamy white flowers are available in summer, followed by edible plum-like fruits. Fruits are often used in jams or jellies.

Landscape uses: screen

USDA zones: 9-11 | Sunset zones: 5, 6, 8-24 | Mature Size: 40-50' H x W |
Light needs: full sun to part shade | Water needs: low to moderate

Current Sizes Available: 5g | 15g | 24"

Notes: _____

***Lyonothamnus floribundus ssp. aspleniifolius* | Fernleaf Catalina Ironwood, Santa Cruz Island Ironwood**

An evergreen tree with a narrow, conical crown & deep green palmate leaves. Foliage is divided into scallop-edged leaflets. Clusters of white flowers form in summer. Bark is fibrous, reddish brown, and shedding. Native to California's Channel Islands.

Landscape uses: screen

USDA zones: 8-10 | Sunset zones: 14-17, 19 -24 | Mature Size: 18-50' H x
15-25' W | Light needs: full sun to part shade | Water needs: low

Current Sizes Available: 5g | 15g | 24" | 36" | 48" | 60" | 72"

Notes: _____

***Olea europaea* 'Swan Hill' | Swan Hill Olives® Tree**

A slow-growing evergreen tree with single or multiple trunks that are light gray and become gnarled with age. Branches form a rounded crown. Gray-green foliage is long, narrowly elliptic and silvery underneath. Certified fruitless variety is grafted onto disease-resistant rootstock. Rarely produces pollen or fruit.

Landscape uses: shade tree, street tree, specimen

USDA zones: 8-10 | Sunset zones: 8, 9, 11-24 | Mature Size: 20-30' H x W |
Light needs: full sun to part sun | Water needs: low to moderate

Current Sizes Available: 24" | 36" | 48" | 60" | 72" | 84" | 96" | 108"

Notes: _____

***Pistacia chinensis* 'Red Push' | Red Push Pistache**

An attractive deciduous tree with divided leaflets that first emerge red, mature to deep green, then turn yellow, orange, and red again in fall. Found to be semi-evergreen in milder climates, like Southern California.

Landscape uses: screen, street tree

USDA zones: 7-9 | Sunset zones: 8-24 | Mature Size: 25-40' H x 20-30' W |
Light needs: full sun | Water needs: low to regular

Current Sizes Available: 15g | 24"

Notes: _____

***Platanus racemosa* 'Roberts' | Roberts' Western Sycamore**

A large California-native, deciduous tree with rough, green, multi-lobed leaves. Attractive shedding bark with patches of brown, gray, and cream. Ball-shaped, fuzzy seed clusters persist through winter. Often develops multiple twisting trunks. Foliage is more deeply cut & bark is more variegated than the species.

Landscape uses: shade tree

USDA zones: 6-10 | Sunset zones: 4-24 | Mature Size: 45-50' H x 35-40' W |
Light needs: full sun | Water needs: moderate to regular

Current Size Available: 15g | 24" | 36" | 48" | 60" | 72"

Notes: _____

***Quercus canbyi* | Canby's Oak, Sierra Oak**

A semi-evergreen tree with a broad, spreading, arching habit. Bark becomes furrowed and gray-brown with age. Dark green leaves are leathery and lance-shaped with shallow, pointed lobes. Inconspicuous female flowers and male catkins yield acorns.

Landscape uses: hedge, screen, shade tree, street tree

USDA zones: 8-10 | Sunset zones: 5, 6, 8-24 | Mature Size: 20-30' H x
15-30' W | Light needs: full sun to part shade | Water needs: low

Current Sizes Available: 15g | 24" | 36" | 48"

Notes: _____

***Quercus castaneifolia* | Chestnut-Leaved Oak, Persian Oak**

A deciduous tree with a tall and rounded crown of oblong to lanceolate, moderately serrated deep green leaves. Bark becomes furrowed and grayish-brown with age. Inconspicuous female flowers and male catkins yield one inch long acorns.

Landscape uses: shade tree, street tree, specimen

USDA zones: 6-10 | Sunset zones: 4-24 | Mature Size: 30-75' H x 15-45' W |
Light needs: full sun | Water needs: low

Current Sizes Available: 15g | 24"

Notes: _____

***Quercus x comptoniae* | Compton Oak, Compton's Hybrid Oak**

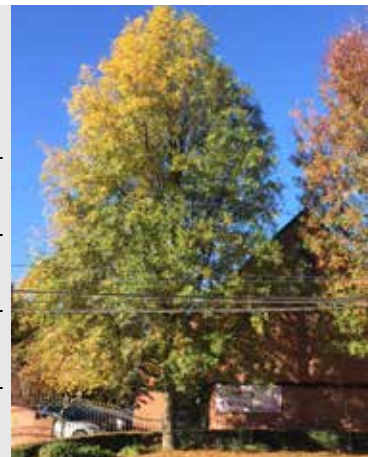

A large deciduous tree with a broad, variable canopy and spreading, contorted, arching branches. Bark becomes furrowed and darker gray with age. Leathery, dark green leaves are thick and egg shaped with sharply toothed, rolled under edges. Yields large acorns.

Landscape uses: shade tree, specimen

USDA zones: 6-9 | Sunset zones: 3-10, 12-24 | Mature Size: 20-70' H x W |
Light needs: full sun to part shade | Water needs: low

Current Sizes Available: 15g | 24" | 36" | 48"

Notes: _____

***Quercus engelmannii* | Engelmann Oak, Mesa Oak**

A moderately fast growing evergreen tree with a rounded, spreading form. Light grayish-brown bark is furrowed and scaly, the trunk becomes more gnarled & twisted with age. Leaves are oblong to ovate, bluish-green, and leathery. Insignificant spring flowers are followed by mid-sized acorns.

Landscape uses: specimen, street tree

USDA zones: 8-10 | Sunset zones: 7-9, 14-21 | Mature Size: 25-40' H x 15-20' W | Light needs: full sun | Water needs: low

Current Sizes Available: 15g | 24" | 36" | 48" | 60" | 72"

Notes: _____

***Quercus gambelii* | Gambel Oak, Rocky Mountain White Oak**

Deciduous tree native to Western US. Characteristic, rough light grayish-brown bark. Leaves are deep green with whitish, hairy undersides. Wonderful fall color palette of golden yellow, orange, and red. One inch, egg shaped acorns appear in late summer to early fall.

Landscape uses:

USDA zones: 4-8 | Sunset zones: 1-3, 10 | Mature Size: 15-30' H x W | Light needs: full sun to part shade | Water needs: low to moderate

Current Sizes Available: 15g | 24" | 36"

Notes: _____

***Quercus gravesii* | Chisos Red Oak**

A deciduous tree with broad, spreading, arching branches. Bark becomes furrowed and darker with age. Glossy, dark green leaves are narrowly oval with rounded, sharp-tipped lobes. Foliage turns ornamental gold and red in fall. Inconspicuous female flowers & male catkins yield acorns. Native to Texas.

Landscape uses: street tree

USDA zones: 7-10 | Sunset zones: 7-9, 14-24 | Mature Size: 35-40' H x 30-35' W | Light needs: full sun to part shade | Water needs: low to moderate

Current Sizes Available: 15g | 24" | 36"

Notes: _____

***Quercus hypoleucoides* | Silverleaf Oak**

A small evergreen oak tree with a rounded crown of leathery, lance-shaped leaves. Foliage is light green with striking, silvery-white undersides. Golden-brown acorns are present during spring and provide a source of food for local wildlife.

Landscape uses: screen

USDA zones: 7-9 | Sunset zones: 4-9, 16-22 | Mature Size: 20-30' H x W | Light needs: full sun to part sun | Water needs: low to moderate

Current Sizes Available: 15g | 24" | 36" | 48"

Notes: _____

***Quercus ithaburensis* | Mount Tabor Oak**

A rare Mediterranean native tree, with a sweeping, graceful habit and grayish-brown furrowed bark. Leaves are oval shaped, with lightly serrated edges. Good fall color palette. Spring flowers yield medium sized acorns in fall.

Landscape uses: screen

USDA zones: 7-10 | Sunset zones: 7-9, 14-24 | Mature Size: 45-60' H x W |
Light needs: part shade to full sun | Water needs: low

Current Sizes Available: 24"

Notes: _____

***Quercus oblongifolia* | Mexican Blue Oak**

Evergreen oak tree common in open woodlands, foothills, and canyons of Southwest US. Deep grayish blue leaves are leathery, and populate a broad and open canopy. Bark is deeply fissured and grayish brown. Inconspicuous flowers bloom in May, followed by acorns.

Landscape uses: specimen

USDA zones: 8-10 | Sunset zones: 5, 6, 8-24 | Mature Size: 25-30' H x W |
Light needs: full sun to part shade | Water needs: low

Current Sizes Available: 15g | 24" | 36"

Notes: _____

***Quercus rugosa* | Nettleleaf Oak**

An evergreen tree with a broad, columnar form. Obovate leaves emerge brilliant scarlet then age to leathery, lustrous dark green. Leaf undersides are heavily tomentose with prominent veining, which gives the tree its common name. Scaly acorns emerge in fall. Bark is silvery brown & exfoliates with age. Extremely cold hardy. Native to Mexico.

Landscape uses: screen

USDA zones: 8-10 | Sunset zones: 7-9, 14-24 | Mature Size: 25-60' H x 20-40' W | Light needs: full sun to part shade | Water needs: low

Current Sizes Available: 15g | 24" | 36" | 48" | 60" | 72"

Notes: _____

***Quercus tomentella* | Island Oak**

An evergreen tree with a variable form, depending on location. Bark becomes scaly and darker grayish-brown with age. Shiny, dark green leaves are oval shaped with prominent venation and toothed, rolled under edges. Inconspicuous female and male catkins yield acorns. Native to the Channel Islands of California. Thrives in moist conditions.

Landscape uses: erosion control, hedge, screen

USDA zones: 7-10 | Sunset zones: 7-9, 14-17, 19-24 | Mature Size: 25-50' H x 25-40' W | Light needs: full sun to part shade | Water needs: low

Current Sizes Available: 15g | 24" | 36" | 48" | 60" | 72"

Notes: _____

***Quercus virginiana* 'Sky Climber' | Sky Climber™ Live Oak**

An evergreen tree with a dense pyramidal crown of glossy, dark green leaves with yellowish undersides. Inconspicuous blooms are followed by medium-sized acorns in fall. Consistent upright growth makes this tree ideal for use as a street tree planting, or it can be planted en masse. Attracts birds and wildlife.

Landscape uses: screen, street tree

USDA zones: 8-10 | Sunset zones: 4-24 | Mature Size: 60-80' H x 60-100' W |
Light needs: full sun to part shade | Water needs: low to moderate

Current Sizes Available: 5g | 15g | 24" | 36" | 48" | 60"

Notes: _____

***Quillaja saponaria* | Soapbark Tree**

An upright evergreen tree with spreading, pendulous branches. Vivid green, oval leaves are leathery & slightly toothed at the margins. Intricate, star-shaped greenish white flowers bloom in abundance at branch tips from late spring to mid-summer, followed by pinwheel shaped fruits. Attracts beneficial insects.

Landscape uses: street tree, specimen

USDA zones: 5-9 | Sunset zones: 12-24 | Mature Size: 25-45' H x 15-25' W |
Light needs: full sun | Water needs: low

Current Sizes Available: 5g | 15g | 24"

Notes: _____

ADDITIONAL NOTES

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

ABOUT US

Located at the base of its namesake Mount Diablo, Devil Mountain Wholesale Nursery was established in 1995 with a mission to find and procure whatever plants necessary for its customers, launching the “single source” DMWN solution. Working exclusively with landscape contractors, architects, and designers for over 25 years, Devil Mountain grows and brokers plants to fulfill a customer’s entire order - from flats of color up to 132” boxed trees - offering in store pickup or job site deliveries. Our statewide footprint allows us to provide superior service to our clients with a vast plant palette and unmatched delivery range. We look forward to the opportunity to work with you!
