PT Series

Power Transfer Loops

Used when installing electrified locks or exit devices, power transfer loops provide a simple and economical means of running wires for power and/or data transfer between the frame and the door.

Surface mounted power transfer loops are designed for costeffective power transfer and ease of installation. Whereas concealed mortise power transfer loops are designed for costeffective power transfer and tamper-resistance.

PT-2 Surface Loop, Plastic End Caps

PT-3 Surface Loop, Aluminum Box End Caps

PT-3/8 Surface Loop, Aluminum Box End Caps, 3/8" ID

PT-5 Concealed Mortise Loop

· Flexible steel conduit

APPLICATIONS

Recommended for use with hollow metal and aluminum frame applications.
