

ACCELERATOR

EPOXY ACCELERATOR ADDITIVE

SPEED UP PERFORMANCE.
MAXIMIZE PRODUCTIVITY.

FASTER CURE TIME
Reduce downtime
and stay on
schedule

**QUICK RETURN-
TO-SERVICE**
Recoat windows
and open to traffic
sooner

**ENHANCED
PRODUCTIVITY**
Get more done
in less time

PRODUCT OVERVIEW

Accelerator is a specially formulated, performance-enhancing additive designed to significantly reduce the dry time of epoxy flooring systems. Engineered to boost productivity in cooler environments or fast-paced job schedules, this additive allows installers to accelerate cure times without compromising the coating's durability, adhesion, or overall performance.

When blended at the recommended rate, Epoxy Accelerator enables same-day installations, quicker recoat windows, and faster return-to-service—making it ideal for residential, commercial, and industrial flooring projects. It integrates seamlessly with compatible epoxy systems, maintaining smooth application and consistent finish.

REDUCES DOWNTIME
Speed up cure times and
keep projects moving.

**IDEAL FOR COOLER
CONDITIONS**
Improves cure performance in
low temperatures and
high humidity.

MAINTAINS QUALITY
No compromise on strength,
adhesion, or finish.

IDEAL FOR A WIDE RANGE OF PROJECTS

INDUSTRIAL
FACILITIES

GARAGES &
WORKSHOPS

RETAIL &
COMMERCIAL SPACES

SCHOOLS &
INSTITUTIONS

HANGARS &
MAINTENANCE AREAS

KEY FEATURES

FASTER CURE TIME
Significantly reduces dry and cure times
for epoxy systems.

QUICK RETURN-TO-SERVICE
Enables same-day installation and
earlier reopening of spaces.

IMPROVED LOW-TEMP REACTIVITY
Enhances performance in cooler
environments.

INCREASED EARLY HARDNESS
Builds strength faster for improved
durability.

REDUCED HUMIDITY SENSITIVITY
Less affected by moisture for more
consistent results.

MINIMIZED BLUSH FORMATION
Helps reduce the potential for amine
blush.

ENHANCED PRODUCTIVITY
Boosts efficiency and helps you get
more done, faster.

PERFORMANCE YOU CAN COUNT ON.

COMPATIBLE WITH
MAJOR EPOXY SYSTEMS

EASY TO USE – JUST
