repair need

PRODUCT OVERVIEW

HyperCURE is a two-component, 100% solids flexible epoxy gel repair system designed for rapid curing and superior adhesion. Its exceptional flexibility and bonding properties make it ideal for repairing cracks, filling joints, leveling divots, and applying gel on vertical surfaces. HyperCURE delivers a durable, long-lasting repair while maintaining ease of application.

It can be applied in thin or thick layers, creating a seamless, resilient surface that absorbs impacts and resists chipping. This makes HyperCURE perfect for industrial, commercial, and residential flooring repairs where both strength and flexibility are required.

IDEAL FOR:

KEY FEATURES

LOW VOC FORMULATION

Low odor, user-friendly, and compliant.

LOW ODOR

Minimal odor for a better working experience.

RAPID CURE

Quick curing formula gets you back in service faster.

RAPID RETURN-TO-SERVICE
