

# T-EASY

## POLYPROPYLENE ANTI-SLIP ADDITIVE

SMOOTH SAFETY. EASY PERFORMANCE.

### GENTLE TRACTION

Provides slip resistance with a soft feel under foot.

### RESIDENTIAL & LIGHT TRAFFIC

Ideal for homes, garages, patios, and light-duty areas.

### SPHERICAL DESIGN

Smooth, round particles are less aggressive than angular additives.

### COMFORTABLE UNDERFOOT

Barefoot-friendly texture that maintains a clean, refined finish.

### EASY TO USE & DISPENSE

Lightweight spheres disperse easily and integrate well in coatings.

SPHERICAL SHAPE  
GENTLE TRACTION

## PRODUCT OVERVIEW

T-Easy is a premium polypropylene anti-slip additive designed to enhance safety while maintaining a smooth, comfortable surface. Its spherical shape provides effective slip resistance with a softer feel underfoot compared to angular abrasives like aluminum oxide.

T-Easy is ideal for residential and light traffic environments where a balance of safety, aesthetics, and comfort is desired. It is compatible with epoxy, urethane, polyaspartic, and other clear or pigmented topcoats.

### IDEAL FOR:

RESIDENTIAL  
GARAGES

PATIOS &  
WALKWAYS

BASEMENTS &  
UTILITY ROOMS

STAIRS &  
LANDINGS

## KEY FEATURES

### EFFECTIVE SLIP RESISTANCE

Improves traction in wet, dry, and oily conditions.

### LESS AGGRESSIVE THAN ALUMINUM OXIDE

Spherical shape is easier on skin and feet while still delivering dependable slip resistance.

### PERFECT FOR RESIDENTIAL & LIGHT TRAFFIC AREAS

Designed for environments where comfort, safety, and appearance are equally important.

### MAINTAINS A SMOOTH, REFINED FINISH

Minimal texture impact preserves the look and feel of the coating.

### CHEMICAL & MOISTURE RESISTANT

Unaffected by water, most chemicals, and common cleaning agents.

### WIDE SYSTEM COMPATIBILITY

Works with epoxy, urethane, polyaspartic, acrylic, and other coating systems.

### EASY TO USE

Lightweight, easy to measure and mix for consistent results every time.

**BAREFOOT FRIENDLY**  
Comfortable texture that is easy on feet.

**AESTHETICALLY PLEASING**  
Allows for a sleek, high-end appearance with added safety.

**RELIABLE PERFORMANCE**  
Consistent results and long-term durability you can count on.

**MADE IN THE USA**  
Manufactured in the USA to ensure premium quality and dependable supply.
