

URETHANE CEMENT

1/4" TROWELABLE URETHANE CEMENT

EXTREME DURABILITY. SUPERIOR PROTECTION.

THERMAL SHOCK RESISTANCE

Withstands rapid temperature changes without cracking or failure.

CHEMICAL RESISTANCE

Resists acids, alkalis, solvents, and harsh chemicals for long-term protection.

HIGH STRENGTH

Engineered for heavy-duty performance in demanding environments.

IMPACT & SLIP RESISTANCE

Resists impacts and provides slip-resistant safety.

BROADCAST COMPATIBLE

Ideal for textures with quartz, aggregates, and anti-slip finishes.

PRODUCT OVERVIEW

Trowelable Urethane Cement is a 3-component self-leveling, high performance urethane cement system designed for extreme durability and chemical resistance resulting in 1/4" nominal thickness. Formulated with superior bonding properties, delivering exceptional heat and thermal shock resistance, making it ideal for industrial kitchens, food and beverage processing plants, dairy farms, wine cellars, and other demanding environments.

This low-odor system can be applied in occupied spaces, providing a seamless, easy-to-clean surface that withstands heavy use, spills, and harsh cleaning protocols. Its perfect for areas requiring a tough, long-lasting, and hygienic flooring solution. Can be field pigmented using E-Poly universal colorants.

IDEAL FOR:

INDUSTRIAL KITCHENS

FOOD & BEVERAGE PLANTS

DAIRY FARMS & MILK ROOMS

WINE CELLARS & BREWERIES

OCCUPIED SPACES

KEY FEATURES

THERMAL SHOCK RESISTANCE

Withstands rapid temperature changes without failure.

HIGH HEAT RESISTANCE

Performs in high-heat environments without degrading.

WIDE RANGE OPERATIONAL TEMPS

Functions reliably in a broad range of temperatures.

HIGH IMPACT & SLIP RESISTANCE

Resists impact and provides slip-resistant safety.

ENHANCED FLOW & SELF-LEVELING

Easy to apply with a smooth, uniform finish.

SUPERIOR ABRASION RESISTANCE

Stands up to heavy traffic and constant wear.

HIGH CHEMICAL RESISTANCE

Resists acids, alkalis, solvents, and organic materials.

NEW POUR COMPATIBLE (7-10 DAY)

Allows for fast project turnaround and repairs.

HIGH STRENGTH & HIGH-BUILD

Delivers long-lasting strength in demanding environments.

BROADCAST COMPATIBLE

Works with quartz, aggregates, and decorative finishes.

EXTREME DURABILITY

Built for the toughest industrial conditions with long-lasting results.

CHEMICAL PROTECTION

Resists harsh chemicals and corrosive substances for superior protection.

EASY TO CLEAN

Seamless, non-porous surface for hygienic maintenance.

HEAVY-DUTY PERFORMANCE

Engineered for heavy traffic, impact, and high-abuse applications.

HYGIENIC & SAFE

Supports clean, safe environments with low odor and high chemical resistance.
