

Revision Number: 004.1 Issue date: 04/25/2019

# 1. PRODUCT AND COMPANY IDENTIFICATION

Product name: LOCTITE FREKOTE 700-NC known as IDH number:

Frekote® 700-NC Releasing Interface

 Product type/use:
 Mold Release
 Item number:
 38428

 Restriction of Use:
 None identified
 Region:
 Canada

 Company address:
 Contact information:

Company address: Contact information:
Henkel Canada Corporation Telephone: +1 (905) 814-6511

Meadowpine Boulevard 2515

MEDICAL EMERGENCY Phone: Poison Control Center Mississauga, Ontario L5N 6C3

MEDICAL EMERGENCY Phone: Poison Control Center 1-877-671-4608 (toll free) or 1-303-592-1711

TRANSPORT EMERGENCY Phone: CHEMTREC 1-800-424-9300 (toll free) or 1-703-527-3887

548993

Internet: www.henkelna.com

Contains one or more components for which a Toxic Substances Control Act (TSCA) Low Volume Exemption (LVE) applies. See Section 15.

# 2. HAZARDS IDENTIFICATION

DANGER: CONTENTS UNDER PRESSURE.

EXTREMELY FLAMMABLE AEROSOL.

CAUSES SKIN IRRITATION.

CAUSES SERIOUS EYE IRRITATION.

MAY CAUSE DROWSINESS OR DIZZINESS.

HAZARD CLASS	HAZARD CATEGORY
FLAMMABLE AEROSOL.	1
SKIN IRRITATION	2
EYE IRRITATION	2A
SPECIFIC TARGET ORGAN TOXICITY - SINGLE EXPOSURE	3

#### **Precautionary Statements**

**Prevention:** Keep away from heat, sparks, open flames, hot surfaces - no smoking. Do not spray on an

open flame or other ignition source. Do not pierce or burn, even after use. Avoid breathing mist or spray. Wash affected area thoroughly after handling. Use only outdoors or in a well-

ventilated area. Wear protective gloves, eye protection, and face protection.

**Response:** IF ON SKIN: Wash with plenty of water. IF INHALED: Remove victim to fresh air and keep at

rest in a position comfortable for breathing. Call a POISON CENTER or physician if you feel unwell. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If skin irritation occurs: Get medical attention. If eye

irritation persists: Get medical attention. Take off contaminated clothing.

Storage: Store in a well-ventilated place. Keep container tightly closed. Store locked up. Protect from

sunlight. Do not expose to temperatures exceeding 50°C/122°F.

Disposal: Dispose of contents and/or container according to Federal, State/Provincial and local

IDH number: 548993 Product name: LOCTITE FREKOTE 700-NC known as Frekote® 700-NC Releasing Interface

governmental regulations.

Classification complies with Canadian Hazardous Products Regulations (WHMIS 2015) and is consistent with the provision of the United Nations Globally Harmonized System of Classification and Labeling of Chemicals (GHS).

See Section 11 for additional toxicological information.

# 3. COMPOSITION / INFORMATION ON INGREDIENTS

Hazardous Component(s)	CAS Number	Weight %*
Hydrocarbons, C9-C10, n-alkanes, isoalkanes, cyclics, <2% aromatics	64742-48-9	60 - 80
Dibutyl ether	142-96-1	10 - 30
Propane	74-98-6	10 - 30
Hydrocarbons, C7-C9, isoalkanes	1174921-67-5	1 - 5
Reaction product of tris(n- methylamino)methylsilane (TMAS) and silanol terminated polydimethylsiloxane (PDMS)	1432471-92-5	1 - 5

<sup>\*</sup> Exact percentages may vary or are trade secret. Concentration range is provided to assist users in providing appropriate protections.

# 4. FIRST AID MEASURES

Inhalation: Move to fresh air. If breathing is difficult, give oxygen. If not breathing, give

artificial respiration. Get medical attention.

Skin contact: Remove contaminated clothing and footwear. Immediately flush skin with

plenty of water (using soap, if available). If symptoms develop and persist, get

medical attention. Wash clothing before reuse.

**Eye contact:** Rinse immediately with plenty of water, also under the eyelids, for at least 15

minutes. Get medical attention.

**Ingestion:** Do not induce vomiting: contains petroleum distillates and/or aromatic

solvents. If vomiting occurs, prevent aspiration by keeping the patient's head

below the knees. Get medical attention.

Symptoms: See Section 11.

**Notes to physician:** This material is an aspiration hazard. Potential danger from aspiration must

be weighed against possible oral toxicity when deciding whether to induce

vomiting.

# 5. FIRE FIGHTING MEASURES

**Extinguishing media:** Water spray (fog), foam, dry chemical or carbon dioxide. Do not use high

volume water jet.

**Special firefighting procedures:** Wear self-contained breathing apparatus and full protective clothing, such as

turn-out gear. Water may be unsuitable as an extinguishing media, but may be helpful in keeping adjacent containers cool. Keep personnel upwind of fire.

Unusual fire or explosion hazards: Contents under pressure. Do not puncture or incinerate pressurized

containers. Containers exposed to fire should be cooled with water to prevent vapor pressure buildup which could result in container rupture. If a leak or spill has not ignited, use water spray to disperse vapors. The liquid is volatile and gives off invisible vapors. Vapors may form explosive mixtures with air. Do not handle or store near an open flame, heat or other sources of ignition. Hydrocarbon solvents are basically non-conductors of electricity and can become electrostatically charged during mixing, filtering or pumping at high flow rates. If this charge reaches a significantly high level, sparks can form

that may ignite vapors of flammable liquids.

**Hazardous combustion products:** Oxides of carbon. Oxides of nitrogen. Acrid smoke and fumes. Collect

contaminated fire extinguishing water separately. This must not be discharged

into drains.

# 6. ACCIDENTAL RELEASE MEASURES

Use personal protection recommended in Section 8, isolate the hazard area and deny entry to unnecessary and unprotected personnel.

Environmental precautions: Do not allow product to enter sewer or waterways. Prevent further leakage or

spillage if safe to do so. Advise authorities if product has entered or may enter sewers, water sources or extensive land areas. This product is insoluble in

water and will float on surface.

Clean-up methods: Remove all sources of ignition. Ventilate area. Keep upwind of the spilled

material and isolate exposure. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust). Store in a closed container until ready for disposal. Vapors are heavier than air and may travel along the ground or be moved by ventilation and subsequently ignited by heat, pilot lights or other ignition sources at locations distant from the material handling point. Refer to Section 8 "Exposure Controls / Personal Protection"

prior to clean up.

# 7. HANDLING AND STORAGE

Handling: During use and until all vapors are gone: Keep area ventilated - do not

smoke; extinguish all flames, pilot lights, and heaters; turn off stoves, electrical tools and appliances, and any other sources of ignition. Prevent contact with eyes, skin and clothing. Do not breathe vapor and mist. Wash thoroughly after handling. Do not taste or swallow. Do not puncture or incinerate pressurized containers. Refer to Section 8. For operations where eye or face

contact could occur, provide safety shower and eyewash fountain.

Storage: For safe storage, store at or below 48.8 °C (119.8 °F)

Keep in a cool, well ventilated area away from heat, sparks and open flame.

Keep container tightly closed until ready for use.

For information on product shelf life, please review labels on container or check the Technical Data Sheet.

#### 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Employers should complete an assessment of all workplaces to determine the need for, and selection of, proper exposure controls and protective equipment for each task performed.

Hazardous Component(s)	ACGIH TLV	OSHA PEL	AIHA WEEL	OTHER
Hydrocarbons, C9-C10, n-alkanes, isoalkanes, cyclics, <2% aromatics	None	None	None	None
Dibutyl ether	None	None	None	None
Propane	D: Simple asphyxiant, EX: Explosion hazard (Simple asphyxiant.)	1,000 ppm (1,800 mg/m3) PEL	None	None
Hydrocarbons, C7-C9, isoalkanes	None	None	None	None
Reaction product of tris(n- methylamino)methylsilane (TMAS) and silanol terminated polydimethylsiloxane (PDMS)	None	None	None	None

Engineering controls: Use explosion-proof mechanical ventilation and local exhaust to control

contaminants to within their occupational exposure limits during the use of this

product.

Respiratory protection: Use a NIOSH approved supplied air respirator with an organic cartridge if the

potential to exceed established exposure limits exists.

Eye/face protection: Safety goggles or safety glasses with side shields. Full face protection should

be used if the potential for splashing or spraying of product exists. Safety

showers and eye wash stations should be available.

Skin protection: Use chemical resistant, impermeable clothing including gloves and either an

apron or body suit to prevent skin contact.

# 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state:AerosolColor:Clear colorless

Odor: Mild

Odor threshold:

pH:
Not available.

Not applicable

Vapor pressure:
1551 - 1809 mm hg

Boiling point/range:
Not available.

Melting point/ range:
Not available.

Specific gravity:
0.74 Base only

Vapor density:
3.85 Approximately

Flash point: Extremely Flammable.ASTM D 3065

Flammable/Explosive limits - lower: Not available.
Flammable/Explosive limits - upper: Not available.
Autoignition temperature: Not available.

Flammability: Extremely flammable aerosol.

Evaporation rate: 0.43 (Ether = 1)
Solubility in water: Slight

Partition coefficient (n-octanol/water): Not available.

**VOC content:** 99.8 %; 740 g/l EPA Method 24

Viscosity:Not available.Decomposition temperature:Not available.

# 10. STABILITY AND REACTIVITY

Stability: Risk of ignition. Stable under normal conditions of storage and use.

Hazardous reactions: None under normal processing.

Hazardous decomposition

products:

Oxides of carbon. Traces of Ammonia. Hydrocarbons.

**Incompatible materials:** Strong oxidizing agents. Strong acids and strong bases. Humid air. Water.

Reactivity: Not available.

Conditions to avoid: Heat, flames, sparks and other sources of ignition. Store away from incompatible materials.

Vapours may form explosive mixture with air. Exposure to air or moisture over prolonged

periods. Fire or intense heat may cause violent rupture of packages.

#### 11. TOXICOLOGICAL INFORMATION

Relevant routes of exposure: Skin, Inhalation, Eyes, Ingestion

#### Potential Health Effects/Symptoms

Skin contact:

Inhalation: Vapors and mists will irritate nose and throat and possibly eyes. Central nervous system

depression, including dizziness, drowsiness, fatigue, nausea, headache, unconsciousness. Causes skin irritation. Solvent action can dry and defat the skin, causing the skin to crack,

leading to dermatitis.

**Eye contact:** Causes serious eye irritation.

Ingestion: May cause gastrointestinal tract irritation if swallowed. Aspiration may occur during swallowing

or vomiting, resulting in lung damage. Central nervous system depression, including dizziness,

drowsiness, fatigue, nausea, headache, unconsciousness.

Hazardous Component(s)	LD50s and LC50s	Immediate and Delayed Health Effects
Hydrocarbons, C9-C10, n-alkanes, isoalkanes, cyclics, <2% aromatics	Inhalation LC50 (Rat, 4 h) = > 5.36 mg/l Inhalation LC50 (Rat, 4 h) = > 8,530 mg/m3	No Data
Dibutyl ether	None	Irritant, Central nervous system, Cardiac, Kidney, Gastrointestinal, Mutagen
Propane	None	Cardiac, Central nervous system, Irritant
Hydrocarbons, C7-C9, isoalkanes	None	No Data
Reaction product of tris(n- methylamino)methylsilane (TMAS) and silanol terminated polydimethylsiloxane (PDMS)	None	No Data

Hazardous Component(s)	NTP Carcinogen	IARC Carcinogen	OSHA Carcinogen (Specifically Regulated)
Hydrocarbons, C9-C10, n-alkanes, isoalkanes, cyclics, <2% aromatics	No	No	No
Dibutyl ether	No	No	No
Propane	No	No	No
Hydrocarbons, C7-C9, isoalkanes	No	No	No
Reaction product of tris(n- methylamino)methylsilane (TMAS) and silanol terminated polydimethylsiloxane (PDMS)	No	No	No

# 12. ECOLOGICAL INFORMATION

**Ecological information:**Not available.

IDH number: 548993 Product name: LOCTITE FREKOTE 700-NC known as Frekote® 700-NC Releasing Interface

# 13. DISPOSAL CONSIDERATIONS

Information provided is for unused product only.

**Recommended method of disposal:**Do not puncture or incinerate pressurized containers. Follow all local, state,

federal and provincial regulations for disposal.

# 14. TRANSPORT INFORMATION

The transport information provided in this section only applies to the material/formulation itself, and is not specific to any package/configuration.

Canada Transportation of Dangerous Goods - Ground

Proper shipping name: AEROSOLS

Hazard class or division: 2.1
Identification number: UN 1950
Packing group: None

International Air Transportation (ICAO/IATA)

Proper shipping name: Aerosols, flammable

Hazard class or division: 2.1 Identification number: UN 1950 Packing group: None

Water Transportation (IMO/IMDG)

Proper shipping name:
Hazard class or division:
Identification number:
Packing group:

AEROSOLS
2.1
UN 1950
None

# 15. REGULATORY INFORMATION

**Canada Regulatory Information** 

CEPA DSL/NDSL Status: One or more components are not listed on, and are not exempt from listing on either the

Domestic Substances List or the Non-Domestic Substances List.

**United States Regulatory Information** 

TSCA 8 (b) Inventory Status: All components of this product are listed on the U.S. Toxic Substances Control Act (TSCA)

inventory or are exempt from listing because a Low Volume Exemption (LVE) has been

granted in accordance with 40 CFR 723.50.

# 16. OTHER INFORMATION

This safety data sheet contains changes from the previous version in sections: 3, 15

Prepared by: Product Safety and Regulatory Affairs
