# **SAFETY DATA SHEET**

Date of issue/Date of revision 28 March 2022 Version 13.02

| Section 1. Identification   |  |  |  |
|---|--|--|--|
| Product name  | : Activator 0778 1Lt   |  |  |
| Product code  | : 07789000-LQK0  |  |  |
| Other means of<br>identification  | : Not available.   |  |  |
| Product type  | : Liquid.  |  |  |
| Relevant identified uses of the substance or mixture and uses advised against |  |  |  |
| Product use   | : Industrial applications, Used by spraying.   |  |  |
| Use of the substance/<br>mixture  | : Hardener.  |  |  |
| Uses advised against  | : Not applicable.  |  |  |
| Manufacturer  | : PPG Aerospace PRC-DeSoto<br>12780 San Fernando Road<br>Sylmar, CA 91342                              |  |  |
| <u>Emergency telephone</u><br><u>number</u>                                   | Phone: 818 362 6711<br>: (412) 434-4515 (U.S.)<br>(514) 645-1320 (Canada)<br>01-800-00-21-400 (Mexico) |  |  |

### Section 2. Hazards identification

| OSHA/HCS status                            | <ul> <li>This material is considered hazardous by the OSHA Hazard Communication Standard<br/>(29 CFR 1910.1200).</li> </ul>   |
|--|---|
| Classification of the substance or mixture | <ul> <li>FLAMMABLE LIQUIDS - Category 3<br/>RESPIRATORY SENSITIZATION - Category 1<br/>SKIN SENSITIZATION - Category 1<br/>CARCINOGENICITY - Category 2<br/>SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Respiratory tract<br/>irritation) - Category 3<br/>SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE) (Narcotic effects) -<br/>Category 3<br/>SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 2</li> <li>Fercentage of the mixture consisting of ingredient(s) of unknown acute dermal toxicity:<br/>35.5%</li> </ul> |
| GHS label elements                         |   |

#### **GHS label elements**

Product name Activator 0778 1Lt

# Section 2. Hazards identification

| Hazard pictograms                |  |  |
|----------------------------------|--|--|
| Signal word                      | : Danger   |  |
| Hazard statements                | <ul> <li>Flammable liquid and vapor.<br/>May cause an allergic skin reaction.<br/>May cause allergy or asthma symptoms or breathing difficulties if inhaled.<br/>May cause respiratory irritation.<br/>May cause drowsiness or dizziness.<br/>Suspected of causing cancer.<br/>May cause damage to organs through prolonged or repeated exposure. (hearing organs)</li> </ul>  |  |
| Precautionary statements         |  |  |
| Prevention                       | : Obtain special instructions before use. Do not handle until all safety precautions have<br>been read and understood. Wear protective gloves, protective clothing and eye or face<br>protection. Wear respiratory protection. Keep away from heat, hot surfaces, sparks,<br>open flames and other ignition sources. No smoking. Use explosion-proof electrical,<br>ventilating or lighting equipment. Use non-sparking tools. Take action to prevent static<br>discharges. Use only outdoors or in a well-ventilated area. Do not breathe vapor.<br>Contaminated work clothing must not be allowed out of the workplace.  |  |
| Response                         | : IF exposed or concerned: Get medical advice or attention. IF INHALED: Remove<br>person to fresh air and keep comfortable for breathing. Call a POISON CENTER or<br>doctor if you feel unwell. If experiencing respiratory symptoms: Call a POISON<br>CENTER or doctor. IF ON SKIN (or hair): Take off immediately all contaminated<br>clothing. Rinse skin with water. Wash contaminated clothing before reuse. IF ON SKIN:<br>Wash with plenty of water. If skin irritation or rash occurs: Get medical advice or<br>attention.   |  |
| Storage                          | : Store locked up. Store in a well-ventilated place. Keep container tightly closed. Keep cool.   |  |
| Disposal                         | : Dispose of contents and container in accordance with all local, regional, national and international regulations.  |  |
| Supplemental label<br>elements   | : Moisture-sensitive material. Repeated exposure to high vapor concentrations may cause irritation of the respiratory system and permanent brain and nervous system damage. Inhalation of vapor/aerosol concentrations above the recommended exposure limits causes headaches, drowsiness and nausea and may lead to unconsciousness or death. Skin contact to isocyanate monomer may lead to allergic lung reaction. Based on the properties of the isocyanate components and considering toxicological data on similar mixtures, this mixture may cause acute irritation and/or sensitization of the respiratory system, leading to an asthmatic condition, wheezing and tightness of the chest. Sensitized persons may subsequently show asthmatic symptoms when exposed to atmospheric concentrations well below the OEL. Repeated exposure may lead to permanent respiratory disability. Persons with a history of skin sensitization problems or asthma, allergies or chronic or recurrent respiratory disease should not be employed in any process in which this product is used. Avoid contact with skin and clothing. Wash thoroughly after handling. Emits toxic fumes when heated. |  |
| Hazards not otherwise classified | : Prolonged or repeated contact may dry skin and cause irritation.   |  |

Product name Activator 0778 1Lt

### Section 3. Composition/information on ingredients

#### Substance/mixture Product name

: Mixture

: Activator 0778 1Lt

| Ingredient name  | %           | CAS number     |
|--|-------------|----------------|
| p-butyl acetate  | ≥20 - ≤50   | 123-86-4       |
| 3-Isocyanatomethyl-3,5,5-trimethylcyclohexyl isocyanate, oligomers | ≥20 - ≤50   | 53880-05-0 (EC |
| (isocyanurate type)  |             | 931-312-3)     |
| 2-methoxy-1-methylethyl acetate                                    | ≥5.0 - ≤10  | 108-65-6       |
| xylene   | ≥5.0 - ≤8.1 | 1330-20-7      |
| ethylbenzene   | ≤1.8        | 100-41-4       |
| 3-isocyanatomethyl-3,5,5-trimethylcyclohexyl isocyanate            | <1.0        | 4098-71-9      |

SUB codes represent substances without registered CAS Numbers.

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

If ingestion, irritation, any type of overexposure or symptoms of overexposure occur during or persists after use of this product, contact a POISON CONTROL CENTER, EMERGENCY ROOM OR PHYSICIAN immediately; have Safety Data Sheet information available. Never give anything by mouth to an unconscious or convulsing person.

#### Description of necessary first aid measures

| Eye contact  | : Remove contact lenses, irrigate copiously with clean, fresh water, holding the eyelids apart for at least 10 minutes and seek immediate medical advice.  |
|--------------|--|
| Inhalation   | : Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. |
| Skin contact | : Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognized skin cleanser. Do NOT use solvents or thinners.   |
| Ingestion    | : If swallowed, seek medical advice immediately and show this container or label. Keep person warm and at rest. Do NOT induce vomiting.  |

#### Most important symptoms/effects, acute and delayed

| Potential acute health effect | <u>s</u>   |
|-------------------------------|--|
| Eye contact                   | : No known significant effects or critical hazards.  |
| Inhalation                    | : Can cause central nervous system (CNS) depression. May cause drowsiness or dizziness. May cause respiratory irritation. May cause allergy or asthma symptoms or breathing difficulties if inhaled. |
| Skin contact                  | : Defatting to the skin. May cause skin dryness and irritation. May cause an allergic skin reaction.   |
| Ingestion                     | : Can cause central nervous system (CNS) depression.   |
| Over-exposure signs/sympto    | <u>oms</u>   |
| Eye contact                   | : No specific data.  |

**United States** 

Page: 4/17

Product name Activator 0778 1Lt

### Section 4. First aid measures

| L | Inhalation                              | : Adverse symptoms may include the following:<br>respiratory tract irritation<br>coughing<br>wheezing and breathing difficulties<br>asthma<br>nausea or vomiting<br>headache<br>drowsiness/fatigue<br>dizziness/vertigo   |
|---|---|---|
|   | Skin contact                            | unconsciousness<br>Adverse symptoms may include the following:<br>irritation<br>redness<br>dryness<br>cracking  |
| 1 | Ingestion<br>ndication of immediate med | : No specific data.   |
|   | Notes to physician                      | : In case of inhalation of decomposition products in a fire, symptoms may be delayed.<br>The exposed person may need to be kept under medical surveillance for 48 hours.  |
|   | Specific treatments                     | : No specific treatment.  |
|   | Protection of first-aiders              | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water |

before removing it, or wear gloves.

See toxicological information (Section 11)

### Section 5. Fire-fighting measures

| Extinguishing media                          |  |
|--|--|
| Suitable extinguishing media                 | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam.   |
| Unsuitable extinguishing media               | : Do not use water jet.  |
| Specific hazards arising from the chemical   | : Flammable liquid and vapor. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. Vapors may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back. Runoff to sewer may create fire or explosion hazard. |
| Hazardous thermal decomposition products     | : Decomposition products may include the following materials:<br>carbon oxides<br>nitrogen oxides  |
| Special protective actions for fire-fighters | : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.                     |

Product name Activator 0778 1Lt

### Section 5. Fire-fighting measures

Special protective equipment for fire-fighters

: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

### Section 6. Accidental release measures

| Personal precautions, protect  | <u>ctiv</u> | e equipment and emergency procedures   |
|--------------------------------|-------------|--|
| For non-emergency<br>personnel | :           | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Shut off all ignition sources.<br>No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide<br>adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put<br>on appropriate personal protective equipment.                                |
| For emergency responders       | :           | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |
| Environmental precautions      | :           | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains<br>and sewers. Inform the relevant authorities if the product has caused environmental<br>pollution (sewers, waterways, soil or air).  |
| Methods and materials for co   | onta        | ainment and cleaning up  |
| Small spill                    | :           | Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.   |
| Large spill                    | :           | Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a |

Special provisions
 Iccensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.
 Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Place in a suitable container. The contaminated area should be cleaned immediately with a suitable decontaminant. One possible (flammable) decontaminant comprises (by volume): water (45 parts), ethanol or isopropyl alcohol (50

decontaminant comprises (by volume): water (45 parts), ethanol or isopropyl alcohol (50 parts) and concentrated (d: 0,880) ammonia solution (5 parts). A non-flammable alternative is sodium carbonate (5 parts) and water (95 parts). Add the same decontaminant to the remnants and let stand for several days until no further reaction in an unsealed container. Once this stage is reached, close container and dispose of according to local regulations (see section 13). Do not allow to enter drains or watercourses. If the product contaminates lakes, rivers, or sewers, inform the appropriate authorities in accordance with local regulations.

Product name Activator 0778 1Lt

### Section 7. Handling and storage

#### Precautions for safe handling

| Protective measures  | : Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems or asthma, allergies or chronic or recurrent respiratory disease should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Do not enter storage areas and confined spaces unless adequately ventilated. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Take precautionary measures against electrostatic discharges. Empty containers retain product residue and can be hazardous. Do not reuse container. |
|--|---|
| Special precautions  | : Vapors may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back. Vapors are heavier than air and may spread along floors. If this material is part of a multiple component system, read the Safety Data Sheet(s) for the other component or components before blending as the resulting mixture may have the hazards of all of its parts.   |
| Advice on general<br>occupational hygiene                          | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.   |
| Conditions for safe storage,<br>including any<br>incompatibilities | : Store between the following temperatures: 5 to 35°C (41 to 95°F). Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. Precautions should be taken to minimize exposure to atmospheric humidity or water. CO <sub>2</sub> will be formed, which, in closed containers, could result in pressurization.   |

### Section 8. Exposure controls/personal protection

### **Control parameters**

**Occupational exposure limits** 

| Ingredient name   | Exposure limits   |
|---|---|
| <ul> <li>P-butyl acetate</li> <li>3-lsocyanatomethyl-3,5,5-trimethylcyclohexyl isocyanate, oligomers<br/>(isocyanurate type)</li> </ul> | OSHA PEL (United States, 5/2018).<br>TWA: 710 mg/m <sup>3</sup> 8 hours.<br>TWA: 150 ppm 8 hours.<br>ACGIH TLV (United States, 1/2021).<br>STEL: 150 ppm 15 minutes.<br>TWA: 50 ppm 8 hours.<br>IPEL (-). |
| <u> </u>  | United States Page: 6/17  |

Product name Activator 0778 1Lt

### Section 8. Exposure controls/personal protection

| TWA: 0.5 mg/m³<br>STEL: 1 mg/m³   |            |
|---|------------|
| 2-methoxy-1-methylethyl acetate IPEL (-, 10/2017). Absorbed the   | ough skin. |
| TWA: 30 ppm   |            |
| STEL: 90 ppm  |            |
| xylene ACGIH TLV (United States, 1/2  | 021).      |
| STEL: 651 mg/m <sup>3</sup> 15 minutes.   |            |
| STEL: 150 ppm 15 minutes.   |            |

|   | 65         |

OSHA = Occupational Safety and Health Administration.

R = Respirable

Z = OSHA 29 CFR 1910.1200 Subpart Z - Toxic and Hazardous Substances

#### Consult local authorities for acceptable exposure limits.

| Recommended monitoring procedures   | : | If this product contains ingredients with exposure limits, personal, workplace<br>atmosphere or biological monitoring may be required to determine the effectiveness of<br>the ventilation or other control measures and/or the necessity to use respiratory<br>protective equipment. Reference should be made to appropriate monitoring standards.<br>Reference to national guidance documents for methods for the determination of<br>hazardous substances will also be required. |
|-------------------------------------|---|---|
| Appropriate engineering<br>controls | : | Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.   |
| Environmental exposure controls     | : | Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process equipment<br>will be necessary to reduce emissions to acceptable levels.   |

#### Individual protection measures

Product name Activator 0778 1Lt

### Section 8. Exposure controls/personal protection

| Hygiene measures       | : Wash hands, forearms and face thoroughly after handling chemical products, before<br>eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Contaminated work clothing should not be allowed out of the workplace. Wash<br>contaminated clothing before reusing. Ensure that eyewash stations and safety<br>showers are close to the workstation location.  |
|------------------------|--|
| Eye/face protection    | : Safety glasses with side shields.  |
| Skin protection        |  |
| Hand protection        | : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. |
| Gloves                 | : butyl rubber   |
| Body protection        | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear antistatic protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves.   |
| Other skin protection  | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| Respiratory protection | : Use an air-fed respirator unless a site-specific assessment determines that an air-fed respirator is not necessary, in which case the results of the risk assessment should be utilized to determine whether respiratory protection is necessary and what type of protection is appropriate. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. The respiratory protection shall be in accordance to 29 CFR 1910.134.  |
| Restrictions on use    | <ul> <li>Persons with a history of asthma, allergies or chronic or recurrent respiratory disease</li> </ul>  |
|                        | should not be employed in any process in which this product is used  |

### Section 9. Physical and chemical properties

| Appearance                |                     |
|---------------------------|---------------------|
| Physical state            | : Liquid.           |
| Color                     | : Colorless.        |
| Odor                      | : Characteristic.   |
| Odor threshold            | : Not available.    |
| рН                        | : Not applicable.   |
| Melting point             | : Not available.    |
| Boiling point             | : >37.78°C (>100°F) |
| Flash point               | :                   |
| Auto-ignition temperature | : Not available.    |
| Decomposition temperature | : Not available.    |
| Flammability (solid, gas) | : Not available.    |

Product name Activator 0778 1Lt

### Section 9. Physical and chemical properties

| Lower and upper explosive (flammable) limits             | : Not available.  |
|--|---|
| Evaporation rate   | : Not available.  |
| Vapor pressure   | : Not available.  |
| Vapor density  | : Not available.  |
| Relative density   | : 0.97  |
| Density(lbs / gal)                                       | : 8.1   |
| Solubility<br>Partition coefficient: n-<br>octanol/water | <ul><li>Insoluble in the following materials: cold water.</li><li>Not applicable.</li></ul> |
| Viscosity  | : Kinematic (40°C (104°F)): <14 mm²/s (<14 cSt)   |
| VOC  | : Not determined  |
| % Solid. (w/w)   | : 35.7  |

### Section 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.  |  |
|------------------------------------|---|--|
| Chemical stability                 | : The product is stable.  |  |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.   |  |
| Conditions to avoid                | : In a fire, hazardous decomposition products may be produced.<br>Refer to protective measures listed in sections 7 and 8.                                      |  |
| Incompatible materials             | : Keep away from: oxidizing agents, strong alkalis, strong acids, amines, alcohols, water.<br>Uncontrolled exothermic reactions occur with amines and alcohols. |  |
| Hazardous decomposition products   | : Depending on conditions, decomposition products may include the following materials: carbon oxides nitrogen oxides  |  |

#### Specific target organ toxicity (single exposure)

| Name   | Category   | Route of exposure | Target organs                |
|--|------------|-------------------|------------------------------|
| n-butyl acetate  | Category 3 | -                 | Narcotic effects             |
| 3-Isocyanatomethyl-3,5,5-trimethylcyclohexyl isocyanate, oligomers (isocyanurate type) | Category 3 | -                 | Respiratory tract irritation |
| 2-methoxy-1-methylethyl acetate  | Category 3 | -                 | Narcotic effects             |
| xylene   | Category 3 | -                 | Respiratory tract irritation |
| 3-isocyanatomethyl-3,5,5-trimethylcyclohexyl isocyanate                                | Category 3 | -                 | Respiratory tract irritation |

#### Specific target organ toxicity (repeated exposure)

| Name         |            | Route of exposure | Target organs  |
|--------------|------------|-------------------|----------------|
| ethylbenzene | Category 2 | -                 | hearing organs |

Target organs

: Contains material which causes damage to the following organs: brain. Contains material which may cause damage to the following organs: kidneys, lungs, the nervous system, liver, upper respiratory tract, skin, central nervous system (CNS), ears, eye, lens or cornea.

#### Aspiration hazard

| Name | Result   |
|------|--|
|      | ASPIRATION HAZARD - Category 1<br>ASPIRATION HAZARD - Category 1 |

#### Information on the likely routes of exposure

#### Potential acute health effects

| Eye contact<br>Inhalation | <ul> <li>No known significant effects or critical hazards.</li> <li>Can cause central nervous system (CNS) depression. May cause drowsiness or<br/>dizziness. May cause respiratory irritation. May cause allergy or asthma symptoms or</li> </ul> |
|---------------------------|--|
|                           | breathing difficulties if inhaled.   |
| Skin contact              | : Defatting to the skin. May cause skin dryness and irritation. May cause an allergic skin reaction.   |
| Ingestion                 | : Can cause central nervous system (CNS) depression.   |
| Over-exposure signs/      | symptoms   |
| Eye contact               | : No specific data.  |
|                           |  |

Product name Activator 0778 1Lt

# Section 11. Toxicological information

| Inhalation                     | 1   | Adverse symptoms may include the following:<br>respiratory tract irritation   |
|--------------------------------|-----|---|
|                                |     | coughing  |
|                                |     | wheezing and breathing difficulties   |
|                                |     | asthma  |
|                                |     | nausea or vomiting  |
|                                |     | headache  |
|                                |     | drowsiness/fatigue  |
|                                |     | dizziness/vertigo   |
|                                |     | unconsciousness   |
| Skin contact                   | 1   | Adverse symptoms may include the following:   |
|                                |     | irritation  |
|                                |     | redness   |
|                                |     | dryness   |
| he we offer a                  |     | cracking  |
| Ingestion                      |     | No specific data.   |
| Conclusion/Summary             |     | and also chronic effects from short and long term exposure<br>There are no data available on the mixture itself. Skin contact to isocyanate monomer   |
| ,                              |     | may lead to allergic lung reaction. Based on the properties of the isocyanate<br>components and considering toxicological data on similar mixtures, this mixture may<br>cause acute irritation and/or sensitization of the respiratory system, leading to an<br>asthmatic condition, wheezing and tightness of the chest. Repeated exposure may lead<br>to permanent respiratory disability. Exposure to component solvent vapor<br>concentrations in excess of the stated occupational exposure limit may result in adverse<br>health effects such as mucous membrane and respiratory system irritation and adverse<br>effects on the kidneys, liver and central nervous system. Symptoms and signs include<br>headache, dizziness, fatigue, muscular weakness, drowsiness and, in extreme cases,<br>loss of consciousness. Solvents may cause some of the above effects by absorption<br>through the skin. There is some evidence that repeated exposure to organic solvent<br>vapors in combination with constant loud noise can cause greater hearing loss than<br>expected from exposure to noise alone. If splashed in the eyes, the liquid may cause<br>irritation and reversible damage. Ingestion may cause nausea, diarrhea and vomiting.<br>This takes into account, where known, delayed and immediate effects and also chronic<br>effects of components from short-term and long-term exposure by oral, inhalation and<br>dermal routes of exposure and eye contact. |
| Short term exposure            |     |   |
| Potential immediate<br>effects | :   | There are no data available on the mixture itself.  |
| Potential delayed effects      |     | There are no data available on the mixture itself.  |
| Long term exposure             | 1   |   |
|                                |     | There are no data quailable on the mixture itself   |
| Potential immediate<br>effects |     | There are no data available on the mixture itself.  |
| Potential delayed effects      | 1   | There are no data available on the mixture itself.  |
|                                | ect | <u>S</u>  |
| Potential chronic health eff   |     |   |
| Potential chronic health effe  | :   | May cause damage to organs through prolonged or repeated exposure. Prolonged or repeated contact can defat the skin and lead to irritation, cracking and/or dermatitis. Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.   |
|                                |     | repeated contact can defat the skin and lead to irritation, cracking and/or dermatitis.<br>Once sensitized, a severe allergic reaction may occur when subsequently exposed to   |

### Section 13. Disposal considerations

**Disposal methods** 

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations. Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Section 6. Accidental release measures

|                | SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 2<br>HNOC - Defatting irritant   |

**Composition/information on ingredients** 

Product name Activator 0778 1Lt

### Section 15. Regulatory information

| Name   | %           | Classification   |
|--|-------------|--|
| <b>n</b> -butyl acetate  | ≥20 - ≤50   | FLAMMABLE LIQUIDS - Category 2<br>SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE)<br>(Narcotic effects) - Category 3<br>HNOC - Defatting irritant   |
| 3-Isocyanatomethyl-<br>3,5,5-trimethylcyclohexyl<br>isocyanate, oligomers<br>(isocyanurate type) | ≥20 - ≤50   | SKIN SENSITIZĂTION - Category 1B<br>SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE)<br>(Respiratory tract irritation) - Category 3  |
| 2-methoxy-1-methylethyl acetate  | ≥5.0 - ≤10  | FLAMMABLE LIQUIDS - Category 3<br>SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE)<br>(Narcotic effects) - Category 3  |
| xylene   | ≥5.0 - ≤8.1 | FLAMMABLE LIQUIDS - Category 3ACUTE TOXICITY (dermal) - Category 4ACUTE TOXICITY (inhalation) - Category 4SKIN IRRITATION - Category 2EYE IRRITATION - Category 2ASPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE)(Respiratory tract irritation) - Category 3ASPIRATION HAZARD - Category 1  |
| ethylbenzene   | ≤1.8        | FLAMMABLE LIQUIDS - Category 2<br>ACUTE TOXICITY (inhalation) - Category 4<br>CARCINOGENICITY - Category 2<br>SPECIFIC TARGET ORGAN TOXICITY (REPEATED<br>EXPOSURE) - Category 2<br>ASPIRATION HAZARD - Category 1<br>HNOC - Defatting irritant  |
| 3-isocyanatomethyl-<br>3,5,5-trimethylcyclohexyl<br>isocyanate                                   | <1.0        | ACUTE TOXICITY (dermal) - Category 4<br>ACUTE TOXICITY (inhalation) - Category 1<br>SKIN IRRITATION - Category 2<br>EYE IRRITATION - Category 2A<br>RESPIRATORY SENSITIZATION - Category 1A<br>SKIN SENSITIZATION - Category 1A<br>SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE)<br>(Respiratory tract irritation) - Category 3 |

#### <u>SARA 313</u>

|                       | <u>Chemical name</u> | <u>CAS number</u> | <b>Concentration</b> |
|-----------------------|----------------------|-------------------|----------------------|
| Supplier notification | : xylene             | 1330-20-7         | 3 - 7                |
|                       | ethylbenzene         | 100-41-4          | 0.5 - 1.5            |

SARA 313 notifications must not be detached from the SDS and any copying and redistribution of the SDS shall include copying and redistribution of the notice attached to copies of the SDS subsequently redistributed.

### Section 16. Other information

Hazardous Material Information System (U.S.A.)

Health : 2 \* Flammability : 3 Physical hazards : 1

(\*) - Chronic effects

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on MSDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.
