## \*\*\* Section 3 - Hazards Identification \*\*\*

### Emergency Overview

Product is a metal case with various electrical connectors. When activated, this product ejects small metal fragments propelled by rapidly expanding gas. Under normal conditions of operation and storage, no adverse health effects are expected. When activated, a small quantity of irritating and toxic fumes and gases are released, including lead oxide or other lead compounds. However, in normal operation, these fumes are diluted by a large volume of extinguishing agent (such as Halon) and pose minimal risk.

### Potential Health Effects: Eyes

No adverse effects expected under normal conditions of operation. While exposure is unlikely, detonation fumes may irritate the eyes. If uninstalled product is activated, small metal fragments are ejected that could damage the eyes.

### Potential Health Effects: Skin

No adverse effects expected under normal conditions of operation. While exposure is unlikely, detonation fumes may irritate the skin. If uninstalled product is activated, small metal fragments are ejected that could damage the skin.

### Potential Health Effects: Ingestion

Ingestion is not an expected exposure route under normal conditions of operation.

## Material Safety Data Sheet

Material Name: Actuating Cartridge, Power Device

ID: KA002-1

### Potential Health Effects: Inhalation

Inhalation is not an expected exposure route under normal conditions of operation. While exposure is unlikely, detonation fumes may irritate the respiratory tract.

### \*\*\* Section 4 - First Aid Measures \*\*\*

#### First Aid: Eyes

For any eye exposure, flush eyes with plenty of cool water for at least 15 minutes. Seek medical attention if irritation develops or persists. If an eye is struck by a shrapnel fragment, seek immediate medical attention.

#### First Aid: Skin

Wash skin immediately with soap and water. Seek medical attention if irritation develops or persists. If skin is injured by a shrapnel fragment, seek immediate medical attention.

#### First Aid: Ingestion

Ingestion is highly unlikely. If gastrointestinal irritation develops after exposure to detonation fumes, seek medical advice.

#### First Aid: Inhalation

Remove affected person to fresh air. If irritation or difficult breathing develops or persists, seek medical attention.

### \*\*\* Section 5 - Fire Fighting Measures \*\*\*

Flash Point: NA

Upper Flammable Limit (UFL): NA

Auto Ignition: 480 °F

Rate of Burning: NA

Method Used: NA

Lower Flammable Limit (LFL): NA

#### General Fire Hazards

Actuator devices can be detonated by fire or high heat, electricity, and high radiofrequency energy.

#### Hazardous Combustion Products

Lead, potassium, and zirconium oxides and chlorides, carbon dioxide and monoxide.

#### Extinguishing Media

DO NOT FIGHT FIRES INVOLVING EXPLOSIVES! Try to keep fire from reaching explosives. Move product away from fire area if it has not yet been exposed to heat. Isolate area. Guard against intruders. Consult the 2000 Emergency Response Guidebook, Guide 114 for further details.

#### Fire Fighting Equipment/Instructions

Firefighters should wear full protective gear, including self-contained breathing apparatus.

### \*\*\* Section 6 - Accidental Release Measures \*\*\*

#### Containment Procedures

Not applicable under normal conditions of operation.

#### Clean-Up Procedures

Carefully pick up devices. Repack undamaged devices for storage and separate visibly damaged devices for proper disposal.

#### Evacuation Procedures

Keep unnecessary personnel away.

#### Special Procedures

Damaged actuators should be electrically detonated under controlled conditions by properly trained personnel.

### \*\*\* Section 7 - Handling and Storage \*\*\*

#### Handling Procedures

Uninstalled actuators should only be handled by personnel trained to handle explosive devices. Static grounding is recommended when handling unshunted devices.

#### Storage Procedures

Store in accordance with the specification of Subpart K, ATF: Explosives Law and Regulations (27 CFR 55.201-55.219), regarding safe handling and storage of explosive devices. At the minimum, store in a dry area at temperature range of 50 to 85 °F (10 to 30 °C). Keep away from flammable materials and sources of heat and flame. Prevent static discharges.

Wilson, North Carolina 27896-8630

Dear Mr. Frasure:

This is in response to your letter and attachments dated February 19, 2003, in which you requested a variance from the Federal explosives regulations contained at 27 CFR, Part 555.

According to your letter, you are requesting that explosive cartridges manufactured by Kidde Aerospace and Kidde Graviner be exempted as special explosive devices in accordance with 27 CFR 555.32. Of these explosive cartridges, 16 contain 0.44 grams or less of explosive materials, 7 contain 0.59 grams or less of explosive materials, and 47 contain 0.72 grams or less of explosive materials. Eight of the cartridges received exemptions from 27 CFR, Part 555, on July 24, 2002.

The eight cartridges (part numbers 873571-2, 878492-2, 222A2, 223A2, 58311-006, 58311-010, 58311-011, and A718-3) that received an exemption from 27 CFR, Part 555, remain exempt. The additional 62 part numbers are as follows:

472001-1, 841155-1, 872627-2, 873364-1, 874000-1, 894846-1, 895188-1, 895408-1, 895409-1, 897776-1, 897899-1, 897899-2, 897899-3, 898558-1, 899855-1, 446041, 446046, 446047, 876299-3, 877597-1, 877744-2, 877744-3, 262299-2, 446032, 446138, 446139, 446158, 446201, 446203, 446282, 446283, 446290, 446307, 446479, 446596, 446616, 446617, 446705, 446736, 446754, 446090-2, 446161-1, 446189-1, 446384-1, 446384-2, 446518-1, 446582-1, 446582-2, 446582-3, 876296-3, 876561-3, 878493-2, 878562-2, 878563-2, A800545-2,

A805300-45, and A805300-46.

After consulting with our Explosives Technology Branch, we have determined that your completed explosive cartridges, meeting the specifications that you described in your February 19, 2003, letter and attachments, do not pose a threat to public safety when possessed and used for their intended purpose; therefore, we are exempting these items as special explosive devices under the provisions pursuant to 27 CFR 555.32.

This exemption applies only to the devices specified above. Any alterations to these devices, or the manufacture or different devices, will render this variance approval void and necessitate a separate request for exemption.

Although we have determined that these devices are not regulated, the explosive materials used to manufacture them are subject to all provisions of 18 U.S.C., Chapter 40, and its implementing regulations contained at 27 CFR, Part 555. Any explosive materials removed from these devices are also subject to regulation.

We trust that the foregoing has been responsive to your request. Please feel free to contact Specialist Megan Morehouse in the Public Safety Branch at 202-927-2310 if you have any additional questions.

Sincerely yours,
