

THE ONLY TURN-KEY, CLOUD-BASED, AND LAB GRADE POTENCY PROFILE TESTING PLATFORM SOLUTION FOR HEMP.

Powered By:

Ionization Labs is comprised of cannabis industry veterans with backgrounds in science, technology, and data analytics.

We understand that with currently offered testing solutions and limited lab testing capabilities, it is extremely challenging to meet market demands for testing, and we have simplified and removed the “bottleneck” and the wait time by creating Cann-ID.

CANN-ID = TOTAL TURN-KEY POTENCY TESTING SOLUTION:

- Hardware - HPLC manufactured by one of world’s leading analytics device manufacturers.
- Proprietary Software/Hardware Configuration
- Monthly Subscription - SAAS + TAAS (Testing as a Service) - Everything required to perform tests.

WE MAKE IT POSSIBLE TO TEST THE 14 TOP CANNABINOIDS IN 25 MINUTES.

CBNA
Δ9-THC

Δ8-THC
CBD

CBC
THCA

CBDVA
CBDV

CBDA
CBGA

CBG
THCV

CBNA
CBN

The Cann-ID solution utilizes an analytical technique called HPLC, or high performance liquid chromatography. This is considered to be the gold standard in potency testing by third party, state sanctioned. We simplify it with our proprietary software and subscription service.

ALL SUBSCRIPTIONS INCLUDE

CONSUMABLES

CANN-ID
SOFTWARE

WEEKLY
CALIBRATION

24 HRS LIVE

REPLACEMENT

Cannabis product testing is in high demand, but current services are expensive and inefficient. Products sent for the off-site testing often take over 5 days to return results. With time being the most limited and expensive resource, traditional off-site testing falls short of expectation.

We put chemical data acquisition back into the hands of the operators at a fraction of the cost with greater reliability and reproducibility than traditional off-site lab testing.

Hardware package includes the HPLC device, laptop with Cann-ID software, and multiple other scientific instruments and materials for your sample prep process.

INDUSTRY PROFESSIONALS WE HELP:

- State Agriculture
- Growers / Extractors / Genetic Seeds
- Research / Academia
- Insurance & Banks
