

# Architect's Desk

Design: Hans J. Wegner, 1953

pp571

## Luxurious lines

Hans J. Wegner designed the extraordinary **pp571 Architect's Desk** in 1953 as a match to the **Round Chair** (The Chair). Later in 1955 he designed the **Swivel Chair**, completing a line of exclusive, functional and exquisitely crafted masterpieces for the CEO office.

The desk marks the beginning of Wegner's work on combining sharp steel and sculptural solid wood in elegant and well-balanced solutions. In this respect the desk precedes such unique classics as the **Swivel Chair**, the **Cross Legged Table** and the **pp75** table.

The pure and natural desk clearly extends the ideas behind Wegner's breakthrough design the **Round Chair**. The scarce, organic and always reasonable, yet luxurious lines, became the language of shape that clearly distinguishes Wegner as a true artist with a deep understanding of proportion, material and function.

# Architect's Desk

Design: Hans J. Wegner, 1953

pp571

The solid wood tabletop is made of wood from the same tree.

pp571 is fitted with a lock in each drawer.

Stretchers, brackets, handles and fittings all in solid stainless steel.
