AQ01™
DESIGNED BY ANNE QVIST

DELIGHT YOUR OFFICE ENVIRONMENT WITH FUNCTIONALITY AND ELEGANCE

With attention to detail and custom illumination, the new desk light AQ01™ lights up your work and — most importantly — boosts the aesthetic, happiness and efficiency of the modern office environment.

From desk to wall.
With the wall bracket, AQ01 has several options in use, e.g. in a lounge environment as a bedside light.

AQ01™

LIGHTING IS ABOUT LIFE. AND THAT IS WHY AQ01™ NOT ONLY LIGHTS UP PEOPLE'S DESK BUT THEIR UNIQUE MOMENTS.

Designer Anne Qvist

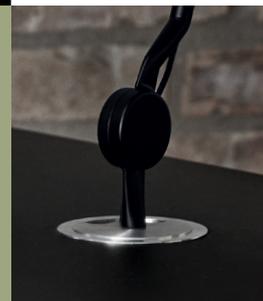

AQ01™ provides a natural desk light combining a familiar design language and a simplistic touch of the future.

The evolutionary result is a desk light used as a plug-in, placed in the table or the wall base, expressing functionality and elegance. Glare is prevented with a unique diffuser, 100% direct downward illumination is achieved with a symmetric rotational pattern, and you can dim the light with a simple touch. The delicate arms connecting the joints, and the head designed to attract the human hand, are an elegant support to the perfect lighting.

AQ01™ is, simply put, designed to enrich your experience of lighting.

PRODUCT NAME	AQ01™ Plug-in AQ01™ Table base AQ01™ Wall base
COLOUR	White, Black, Blue
SURFACE MATERIAL	Matt lacquer Aluminum
