CARE INSTRUCTIONS

MARBLE FURNITURE

ABOUT US

TIMELESS DESIGN

All our designs are intentionally timeless. They withstand trends and associate well with different styles, and they can be passed on from one home to the next, carrying over the stories of one lifetime into another. Our collections go back to the essence of what we believe is good design: pieces full of character, made from quality materials that ages beautifully.

We create collections for every room or space: from the furniture that defines the purpose of a space to the objects that layer it with meaning. Nothing excites us more than seeing how people love and use our products in the story of their life.

UNIQUENESS OF THE PRODUCT

Outstanding craftsmanship is at the core of our brand, and behind the simplicity of our pieces lies a constant drive for innovation. Incorporating advanced techniques to our process of creation, each new design is revised and reworked to the last detail: every curve, texture and line reflects our design values.

TIPS & TRICKS

- This product is intended for indoor use only.
- Recommended humidity in the room: between 40% and 60%.
- Ideal room temperature: between 14°C/57°F and 21°C/70°F.
- To prevent colour differences: do not place your furniture in direct sunlight and move objects placed on the furniture from time to time.
- Avoid exposure to extreme conditions: do not place furniture near heating sources or air-conditioners.
- To prevent staining, we recommend that any spills be removed immediately.
- Use place mats and/or coasters to prevent hot pots and pans, or cold glasses and bottles, from leaving marks on the furniture.
- Do not drag the furniture along the floor, always lift the furniture when moving.
- Always ensure water and solutions used to clean the floor do not come in contact with the furniture's base, as it might leave permanent marks.

CARE INSTRUCTIONS

Marble is a natural product, so it needs to be treated with care. Your Ethnicraft marble furniture is finished with an oil protection. This is a transparent layer that does not affect the look of the polished marble.

However, it is important to know that direct contact with abrasive/high acidity products, even natural (such as lemons, wine, etc.) should be avoided. We strongly recommend the use of coasters to prevent cold glasses and bottles from leaving marks on the furniture. Due to the porous nature of marble, remove spills immediately as this could cause permanent stains.

REGULAR CARE

For regular dusting, use a dry cloth. For cleaning or in case of a spill, use a damp cloth and natural soap. Do not use soap containing detergent or other chemicals. Dry with a soft clean cloth to prevent spotting.

THOROUGH CARE

In the case of any unexpected dried spills or marks we recommend using a high quality cleaner specified for natural stone surfaces. For stubborn stains and traces, we recommend lightly rubbing with fine steel wool in a circular motion.

METAL STRUCTURES

We advise the following:

- Dust regularly using a soft dry cloth.
- For a more thorough cleaning, use mild soap and warm water. Rinse with clean water and wipe dry.
- Do not use steel wool, sandpaper, mineral acid, bleach, or chlorine cleaners on metal surfaces.
- Do not drag the furniture along the floor, as it might damage the protective coating, cause rusting or leave permanent marks on the floor.
- Always lift the furniture when moving them from place to place.

**We create the foundations
of your home, to inspire the
stories of your life.**
