CLEANING & MAINTENANCE OF OILED WOOD FURNITURE

Regular maintenance of oiled wooden furniture is both easy and efficient for long term use. To achieve an optimal result we recommend oiling your product twice a year. We recommend a natural wood oil. All collection pieces are for indoor use.

CLEANING:

Daily cleaning is done with a soft cloth wrung out in clean water. Avoid using cleaners containing any type of chemicals on the furniture.

OILING TREATMENT:

1. Clean the furniture using a clean cloth dampened with warm water.
2. Once the furniture is dry, apply oil to a clean soft cloth or sponge - do not pour the oil directly on the wood
3. Rub the oil into the wood in the direction of the grain, treating the entire surface of the furniture piece.
4. Let the oil soak for about two hours, then remove any excess oil with a soft clean dry cloth.
5. Rub the surface with a clean soft cloth until a uniform surface is obtained, then let dry.

NOTE:

End grain (edges), should be treated extra frequently to avoid dryness and cracking in the dry season (winter). Irregular distribution of moisture in the wood can cause unnecessary cracks and gap. To avoid this we recommend oiling both the top and underside of the furniture. Be aware that oily rags can ignite spontaneously. Rags and papers used in the oiling process will be flammable. Air dry after use.
