Our View on Responsibility

At ferm LIVING, we work for a better tomorrow. We want to inspire change and help consumers make responsible choices. Based on nine 2030 Commitments under the categories 'Our Planet', 'Our Society' and 'Our Family', ferm LIVING embraces responsibility holistically and weaves a sustainable mindset into every corner of our business.

Responsibility is a global task that we want to take part in. We understand that there is no finish line and that our goals will continue to adapt according to the changing world around us. We are by no means perfect, but we are doing our part.

We work for a better tomorrow, so you can feel good about your choices today.

Find out more at fermliving.com

Our work with responsibility and a sustainable mindset covers both environmental and social contexts. Certifications and testing ensure working conditions in our supply chain are safe and fair and that our products are responsibly produced and of high quality.

Where relevant, products are tested before they become a part of our collection. These include lighting, furniture, outdoor pieces, kitchen and children's products. To adhere to REACH regulations, accredited testing agencies such as the Danish Technological Institute conduct tests on our products through processes defined by law.

We currently work with the following certifications and initiatives:

GOTS – The Global Organic Textile Standard. Recognised as the world's leading processing standard for textiles made from organic fibres. It defines high-level environmental and social criteria along the entire organic textiles supply chain.

OCS 100 and Organic Blended – The Organic Content Standard. Verifies the presence and amount of organic material in a final product, tracking the flow of a raw material from its source to the final product.

FSC™ – The Forest Stewardship Council™. An international, non-profit certification scheme for wood and paper. In FSC™ forestry, animals and plant life are protected and no more wood is felled than the forest can reproduce. At the same time, FSC™ ensures that workers' rights throughout the certified supply chain are respected.

NORDIC SWAN ECOLABEL – Our candles meet the Nordic Swan Ecolabel specific criteria for environmental performance as well as health aspects, quality and safety.

BSCI – Business Social Compliance Initiative. An industry driven initiative by AMFORI, which aims to monitor and assess workplace standards across global supply chains. An AMFORI BSCI audit helps us to ensure that all our key suppliers treat their workers legally and ethically correct.

UN Global Compact – We are members of the UN Global Compact, and our Code of Conduct is based on their Ten Guiding Principles. It defines the ethical principles of our business and has been signed by all our partners and suppliers. The purpose of the principles set out in our Code of Conduct is to protect workers' health, ensure their safety during production and ensure an ethical and fair partnership for everybody. Our Code of Conduct is available at fermliving.com.

RESPONSIBLE – Today we use RESPONSIBLE as a tag on our products to signify that a product is either FSC, GOTS or OSC 100/ Organic blended certified or produced in a recycled material, such as recycled glass, recycled aluminium, recycled paper pulp or PET-yarn made from post-consumer plastic bottles. In the future, our definition of RESPONSIBLE will expand thanks to our committed work with responsibility criteria, which will be implemented even earlier in the design phase.
