

## DESCRIPTION

The Pascal table is a distinguished piece that harmoniously blends natural materials with refined design. Conceived by designer Ado Avdagić, the table features a glass tabletop supported by a tripod base crafted from solid wood, available in various finishes. The glass top, with a thickness of 2 cm, rests securely on the intricately designed wooden legs, creating a visually striking contrast between the transparent surface and the rich textures of the wood. This design not only emphasizes the beauty of natural materials but also offers a versatile aesthetic that complements diverse interior styles.

## PRODUCTION PROCESS

Tables are crafted from carefully selected, high-quality solid wood, chosen for its durability and distinctive natural grain. Each piece of wood is precisely cut and shaped to achieve clean lines and balanced proportions. Skilled artisans meticulously assemble the components using traditional joinery techniques, ensuring lasting strength and stability. Surfaces are finely sanded to enhance the wood's texture and prepare it for finishing. The final stage involves applying a chosen finish - whether natural oil, wax, or another treatment - to protect the wood and highlight its organic beauty. The result is a versatile, handcrafted table that seamlessly blends functionality with timeless design.
