CT Series Cool Tube

The latest innovation in climate control... the CT Cool Tube helps maintain worker comfort and maximize productivity when working in extremely hot and humid environments.

Features

- 32° of cooling*
- Cools more than any other competitor product on the market
- · Lightweight and comfortable, weighing 3.8 ounces
- · Made from durable lightweight polymer
- Exhaust filter protects against paint overspray and extends product life
- · Optional DynaSwivel fitting for greater mobility
- · Directs hot air away from the body

* Lab chamber testing proves cooling of 45 degrees at tube; 32 degrees at users head

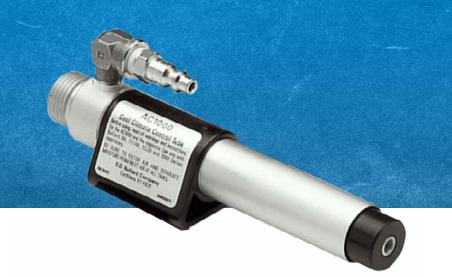

AC1000 Series Cool Tube

The AC1000 Series features an adjustable airflow control valve that allows the user to adjust the incoming air temperature to a level best suited to individual comfort.

Features

- 30° of cooling
- · Adjustable air flow control
- · Durable metal construction

| Ordering Information | | | | |
|---|--|------------------------------|--|--|
| Climate Control devices include a climate control tube, heat shield and belt unless specified | | | | |
