SURVIVOR[®]

2X **THE LIFE**
ON AVERAGE*

Now that we have your attention, we would like to introduce you to our family of hose that features the Survivor[®] compound.

One of the toughest cover compounds used on Continental ContiTech conveyor belts, the **Survivor compound** is now available inside a family of Continental ContiTech material handling hose. It is able to withstand serious abuse and still last longer. Survivor[®]: The name says it all.

*Based on lab results from DIN test with non-rotating head versus abrasion-resistant SBR compounds. Service life may vary depending on application conditions.

ContiTech

Long Life Abrasive Blast Hose & Suction Hose

THE LIFE
ON AVERAGE™

With twice the abrasion resistance*, adding Survivor® compound could help outperform your current abrasion-resistant SBR hose.

WHAT DOES BLAST HOSE WITH 2X THE LIFE MEAN 2 YOU?

- 1/2 the down-time due to changing hoses.
- Blast hose that can last through the big jobs.
- Whip hose that wears like standard blast hose.
- The right hose for the toughest applications.
- More production-time for automated machines with tough-to-change blast / suction hoses.

Static
Conductive

* Based on lab results from DIN test with non-rotating head versus abrasion-resistant SBR compounds. Service life may vary depending on application conditions.
