This side table embodies a celestial, poetic design inspired by the crescent moon. It features two circular surfaces set at different heights, creating a dynamic visual effect that mimics the alignment of a solar or lunar eclipse. The overlapping placement of these surfaces gives the impression of shifting phases, capturing a sense of motion and balance. The contrasting heights of the surfaces add both functionality and intrigue, allowing the table to serve as a striking centerpiece or an artistic accent in the room. Its design brings a subtle cosmic elegance, ideal for spaces with modern or minimalistic decor.
